

PIG® Water Absorbent Mat Pad in Dispenser Box

WTR006 Our Best Mat for Water, 15" x 19", 50 pads

The ONE mat to keep in stock for the cleanup of water problems caused by wet weather, roof and ceiling leaks, pipe bursts and spills.

- Designed and engineered to pull in large volumes of water on contact; superfast wicking helps you quickly eliminate pools and puddles to prevent damage and injuries
- Wring and re-use during a single water spill clean-up, then dispose; wringable mats mean less hassle, less waste and more savings
- The best mat to have on hand when storms or wet weather intrude into your facility; soaks up water that comes in through open windows, porous footers, cracked foundations, roof leaks and seepage under doors
- Helps you deal with water from system breakdowns, including burst or leaking pipes, broken hoses, leaking hot water tanks or malfunctioning equipment
- Soaks up excess washdown water in food service, food processing and other critical areas
- Each mat absorbs nearly one quart of water for fast cleanup when sump pumps or wet-vacs are not necessary or available; creates less waste than wipers or loose absorbents
- Cleaner, more efficient method than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors
- Tough, spunbond top layer holds mat together when it's fully saturated, so it won't rip or fall apart when you pick it up
- Easy-tear perforations let you take only what you need, so you use fewer mats and save money
- Dispenser box makes it easy to carry and store your mat while protecting it from dirt and moisture
- Made with 60% pre-consumer recycled cellulose
