# DESIGN

# GET CREATIVE

## FOLLOW THESE STEPS TO COMPLETE YOUR UNIQUE DESIGN:

### 1. USE OUR DESIGN TEMPLATE TO CREATE YOUR SUIT

Print it and draw your design by hand or use your favourite software for picture editing.

Note that any leather colour is possible. It is a subject of stock, contact us for colours currently available.

### 2. CREATE YOUR LOGO

Preferably send your logo to us in **.svg (vector file)**. If it is not available we can work with high resolution **.pngs** or **.jpgs**.

Note that if your logo is too complex to cut from leather we offer embroidery, cordura and leather printing.

### 3. CHOOSE THE FONT FOR YOUR NAME

Please send the file (**.svg** / high res **.png** / high res **.jpg**) or a link to the font you choose (for example to **1001freefonts.com**). Simple works best.

### 4. SUBMIT

After completing your design and measurements, please send your data to us at **sales@btrleathers.com**

We look forward to receiving files with your design template, your logotype, files or link to your name font and measurements.

If you can't make it, we offer a design service for an additional fee.
