ZAVEDO

A black and white photograph of a mountain landscape. In the foreground, a calm lake reflects the surrounding mountains and a dense forest of trees. The mountains are rugged, with some snow patches visible on the higher peaks. The sky is clear and light. The text is centered in the upper half of the image.

The grey mirror with its darker tone challenges the function of a classic mirror and naturally lends itself to be more aesthetic. The intention is to almost perceive it as an art object on the wall

V I S I O N

We believe in enhancing your physical space by designing and making products that have physical function as well as an emotional artistic purpose.

Our taste is contemporary with a soft, warm and minimalist feel. We are inspired by architectural structures, interiors, landscapes and fashion that evoke emotion in everyday life.

LUNAR 365 MIRROR

The smaller diameter mirrors is used to nest up to the 590 or be used in isolation in any room. Particularly at home in bedrooms or smaller bathrooms where wall space is a premium. Use the leather colour and metal disc to contrast or colour match the decor of your space. The grey mirror option is more aesthetic and best used in well lit locations.
