

Shibui Shelving System

©
PLYROOM

A balance of simplicity, strength and space, the Shibui Shelving System offers spacious storage defined by an elegant framework of timber and brass. With strength that defies its refined profile and thoughtful details, this modular shelving will sit quietly in any space.

Proudly designed and made in Australia from sustainable timbers and solid brass detail. The Shibui offers space for display with generous open compartments that can be adjusted with additional shelves and refined brass bookends to suit your needs. Closed storage can be added to keep things looking tidy. Add shelves and extra length to make the Shibui work for you. Whether it be storage and display in a hallway, to define open spaces, or as a sideboard with space for music.

ADAPTABLE

Created with flexibility in mind, the Shibui Shelving System can be configured and reconfigured depending on how you want to use it. Shelves can be moved, and parts from an existing system can be used to make a new shelf. Closed storage can be added and moved, and more.

SIMPLE

With strength that defies its refined profile and thoughtful details, this modular shelving has been designed to be intentionally understated and sit quietly in your space.

RESPONSIBLE

Plyroom is a member of 1% for the Planet.

Our exclusive use of certified timbers and earth friendly finishes spans our use of premium materials, including European Birch, American Oak and Tasmanian Oak.

TIMELESS

As with all Plyroom pieces, our intention is to create furniture that doesn't have a use by date. Shibui is a fine balance of simplicity, strength and refinement.

ORIGINAL

We are proud of the Shibui Shelving System, designed and made in Australia. For a truly unique design, work with us to customise your Shibui by size and finish.

Customisations

We have designed the Shibui Shelving System so you can customise your shelf to suit you.

You can choose from our existing configurations or create something special and more bespoke.

Step 1: Identify your needs

Creating a functional and aesthetically pleasing shelving system requires consideration of your needs. Take some time to think about where the shelf will be placed and its intended purpose.

Step 2: Measure your space

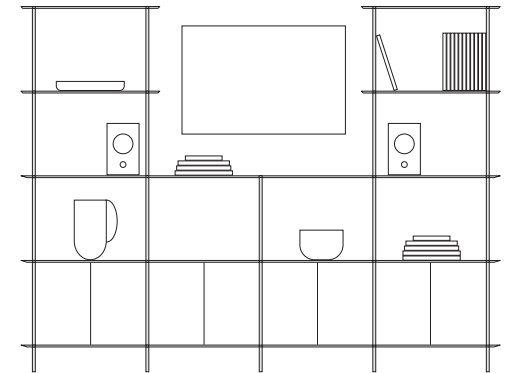

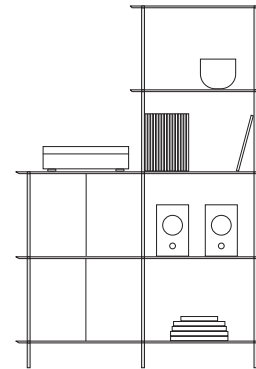

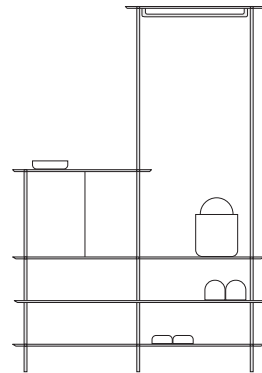

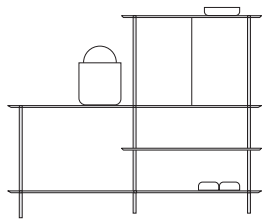

Taking accurate measurements is important for optimising your Shibui shelving unit. We can help you achieve the best solution by taking into account the width, height, and depth of your space.

Step 3: Get in touch

Contact us with your collected information, and we'll work together to create a beautiful and functional piece your home.

Popular Customisations

Personalise the Shibui by adding components such as the 2-door cabinet, shelf with brass garment rail, bookend, or extra shelving to suit your needs and space requirements.
