

## SLOW BED RAIL

### Live Slow, Sleep with Soul

A collection that strips back the complicated layers of modern life to take you back to the basics. The Slow Collection is a nod to the halcyon days of the mid-century, and the classic designs that accompanied this era.

Designed and made in Melbourne, the Slow Bed Rail is designed to slide onto the side of your Slow Bed, offering some extra security for young ones. It can be placed wherever you like on the bed and easily slides off when your child no longer needs it.
