

# KIDS SIZING CHART

To determine your child's shoe size, please follow these steps:

- Print this page and check accuracy (be sure printing options are not set to "fit the page")
- Have your child stand up with a heel just touching the bottom line
- Firmly ask to cease all toewiggling activities
- Quickly trace a line when you get half a chance
- Breathe and repeat with other foot (yes there can be a difference between the 2) Opt for the size that fits the largest foot
- If size between 2 sizes, go for the next full size up.

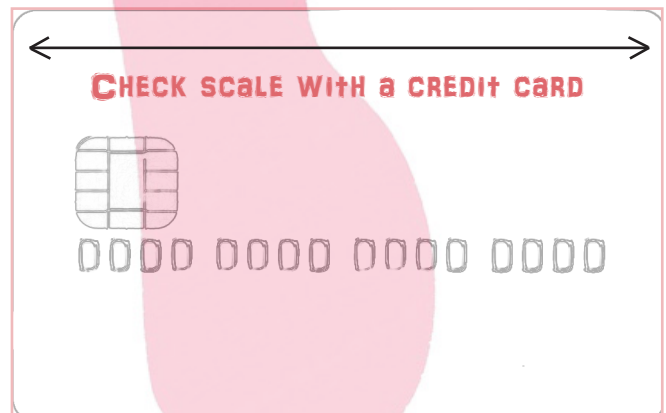

Shoe size conversions vary by brand and we DO run large so please, do the measurements!

If you can't print this or want more information on measurements and conversions, please check the chart below:

Our little kids Sizes	Insole	
	CM	INCHES
5 Toddler	13.6	5.35"
6 Toddler	14.2	5.6"
