READY TO GET ORGANISED WITH elfa®?

Follow these simple steps, and you'll soon be enjoying the benefits of an organised elfa® space.

1. Measure

- Draw a sketch with simple measurements and take some photos of your space
- Or, ask for a free measure and quote

When you're measuring your space, take an inventory of exactly what needs to be stored and start to think about what your supreme storage solution might look like.

2. Design

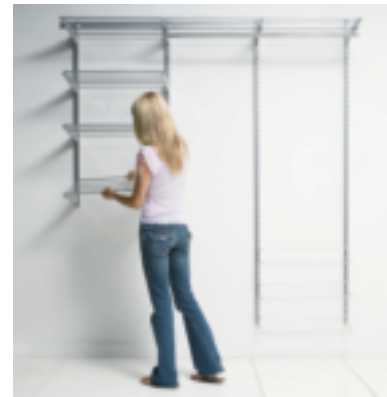

- Visit your local Howards store and make an appointment for a free elfa® design consultation

Bring your notes, thoughts and sketch in-store and we'll help you to customise a plan. If you're pressed for time, call us and we'll arrange to come out to you.

3. Take home today!

- Take home and install yourself, it's easy!
- Or we'll come and do the work for you

Let the fun begin! It's time to install your customised elfa® storage solution. It's simple to install yourself. However, if you'd prefer, we can organise delivery and installation for a small fee.

ENJOY YOUR DREAM SPACE!

Did you know that it is easy to reconfigure your design as your needs change? Move shelves, add more specialised components like pant racks. The options are limitless with a quality elfa® system from Howards.

LET'S GET YOU STARTED

MEASURE

The fastest way to get started is to take down some simple measurements of the space you want to organise. If it's a wardrobe, the guide here will help you record your needs.

Short of design or don't like measuring? Simply ask your local Howards store for a FREE measure and quote. So easy!

Note any features such as powerpoints and light switches that need to be planned in.

TAKE A SIMPLE INVENTORY

If you are designing a wardrobe, take a simple inventory. Tick if you would like to allow space for:

Are precise measurements important to you?

Please ask your Howards elfa® designer to confirm width, depth and height of your finished design as brackets, feet and choice of installation method can alter these precise dimensions.

PLANNING SHEET

Sketch your wardrobe, pantry, laundry or whatever you are trying to organise with elfa®.

Please note on your drawing the **height**, **width** and **depth** of your space. Also note special things we need to know such as positioning of light switches, power points, skirting boards and hinges as they may affect the design.

A large grid for sketching a storage space. The grid consists of 20 columns and 30 rows of small squares, providing a structured area for drawing and planning a wardrobe, pantry, laundry, or other storage area.

ADD SHELVES AND ACCESSORIES

Clip on brackets, shelves, hanging rods and accessories. Within minutes your system is almost complete.

ADD FRAMES AND DRAWERS

Add gliding drawer frames as shown above. All components are easy to move so you can create the perfect space that suites your needs.

VENTILATED SHELVES

Strong epoxy bonded steel

Classic elfa® ventilated shelves can be hung on any style of elfa® unit, for any room. Made from strong epoxy bonded steel, they are chip resistant and allow excellent air flow for healthy storage.

Firstly choose your shelf depth (use colour coding as a guide) and then choose your width. They can even be cut to size if needed.

VENTILATED SHELF BASKET

Shelf with Basket Front

Instead of a pull out basket, your shelf can neatly hold items with the aid of clever, movable dividers. Use for filing, linen, kids homework – what ever needs its own clearly defined section.

Top Track & Hardware

In a choice of 3 widths and depths, the shelves can also be cut down to required size.

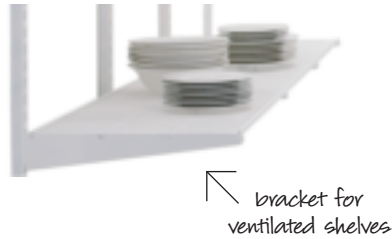

Shelf Baskets

Use shelf dividers with the shelf baskets to create sections for storage.

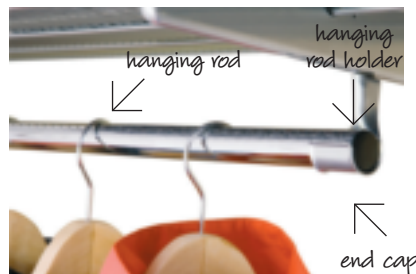

Ventilated Shelf Brackets

Brackets support shelves and shelf baskets at a maximum of 90cm intervals.

Hanging Rods

Hanging rods can be hung on a rod bracket or holders that hang underneath a shelf bracket. Rods can also be positioned between frames or from frame to wall.

CREATE PERFECT DRAWERS - choose your installation style

Drawers are the ideal way to maximise your space utilisation. By grouping like items together you'll never lose anything again. To choose the perfect drawers for your system, first you need to review how you want the drawers to be installed. Choose from a stand alone frame that can be stacked as high as you like, or individual gliding drawer frames that hook onto your system.

A. Stand Alone Drawer Frame

Choose from 3 heights, 3 widths and 2 depths for your frame.
