

# FloodSax®

Sandless Sandbags

## Government & Civil Response

### Be Prepared

Trusted by public agencies across the nation, FloodSax® is the sandless sandbag that absorbs **50 TIMES** its dry weight, offers superior protection against floods and leaks for up to 90 days after use. This Patented Technology is compact and lightweight in design, making it quick and easy to deploy. FloodSax® is **ACTIVATED BY WATER OR OTHER LIQUID**, while providing an unequalled barrier of protection. FloodSax® can be reused as drought irrigation or other green hydro applications.

- ▶ Rapid intervention with maximum impact
- ▶ Absorbs salt/fresh water and hazardous liquids
- ▶ Fast deployment
- ▶ Requires minimal labor
- ▶ Vacuum sealed for safe and efficient storage
- ▶ Light 1 lb. dry weight
- ▶ 25% larger than any sandbag alternatives
- ▶ Expands to 20" x 19" x 6"
- ▶ Up to 10-year shelf life

FLOODSAX® SAVES TIME, INFRASTRUCTURE, AND LIVES

## The Modern Sandbag

FloodSax® is the innovative, quick, self-absorbing, sandless sandbag flood defense system that has reinvented the way emergency management agencies fight damage from uncontained liquids, including chemical and hazardous spills. Each sack unit absorbs up to 5.8 gallons (50 lbs.) of liquid in just 5 minutes, and reaches 90% capacity in just 3 minutes.

### FLOODSAX® SAVED OUR EMERGENCY CENTER OPERATION

*"Within several minutes the FloodSax® expanded, keeping out hundreds of gallons of water and saved us from incredibly costly damage to our facility."*

**Sam Hodge,**  
Director  
Georgetown County Emergency Management

# 97%

**BIODEGRADABLE  
GREEN  
PRODUCT**

**A BOX OF 20 FLOODSAX® CAN BE EASILY CARRIED BY ONE PERSON**  
and hundreds can be easily transported in a car or van.

**FloodSax® have proven effective worldwide when it counts** by saving hundreds of thousands of dollars in prevented damage to residences, hospitals, hotels, shopping centers, warehouses and offices. FloodSax® have also been credited with saving a massive amount of time and effort from building owners, first responders and emergency personnel.

***FloodSax® stops liquid in its tracks!***

## STORAGE & DEPLOYMENT

Military and Government Agencies have come to trust and rely on FloodSax® unprecedented security against liquid damage. Vacuum packed, clean, dry, easy to manage and deploy and require minimum space to store, first responders can quickly protect an area by stacking and staggering FloodSax®. Requiring minimal labor and offering rapid deployment, it creates powerful barriers against flooding, hazardous liquids and sea water.

## ABSORBS ALL TYPES OF LIQUIDS

FloodSax® are powerful and offer the ultimate protection against damage from liquids of all forms, including: water, salt water, gasoline, chemicals, and much more. After absorption, FloodSax® and the damaging liquid can quickly be removed from the effected area. ***"Liquids are no match against FloodSax®!"***

## FREQUENTLY ASKED QUESTIONS

### How do FloodSax® work?

Stored dry, when FloodSax® are deployed and activated by fluid, its biodegradable polymer crystals in a semi-porous case absorbs up to 5.8 gallons, equal to 50 lbs. of water, in just 5 minutes. This makes FloodSax® far more sturdy, consistent and stable than a sandbag or similar product.

### What other uses do FloodSax® have?

FloodSax® work anywhere to absorb and stop liquids. It offers rapid deployment to flood response and chemical/ hazardous spills.

### What sets FloodSax® apart from the market?

Alternative products require fresh water to deploy, have a much shorter shelf life and degrade in salt water. FloodSax® feature a larger capacity and superior engineering, making them more absorbent, biodegradable, and easier to stack for greater flood protection.

This state-of-the-art engineered product is made of polymer crystals, interwoven with a natural wood pulp mix, wrapped in a tough fabric case. Activated by any liquid, FloodSax® unique 9 section design offers a strong structure to stack and stagger to create a powerful flood barrier.

***Simply put, there is nothing that even comes close!***

### SAVES TIMES, INFRASTRUCTURE AND LIVES

- Homes
- Buildings
- Apartments
- Dock Egress/Ingress
- Roads
- Bridges
- Waterways
- Water Diversion
