

## BEST WAY I HAVE FOUND TO FOLD A TRIFECTA

1. Lay the Trifecta flat, mostly zipped up and leave the zipper about 18 inches open to release any air.

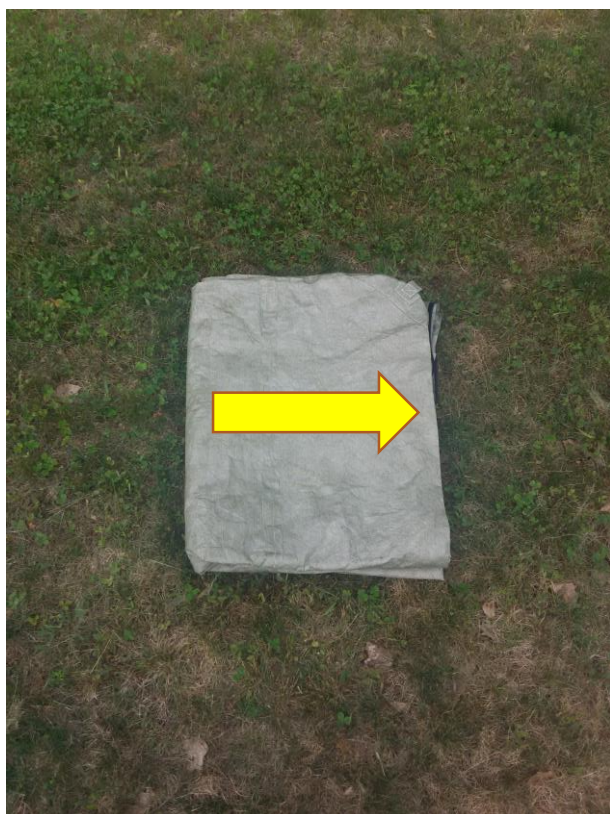

2. Fold bottom to top (or in half)

3. Fold in half again same direction

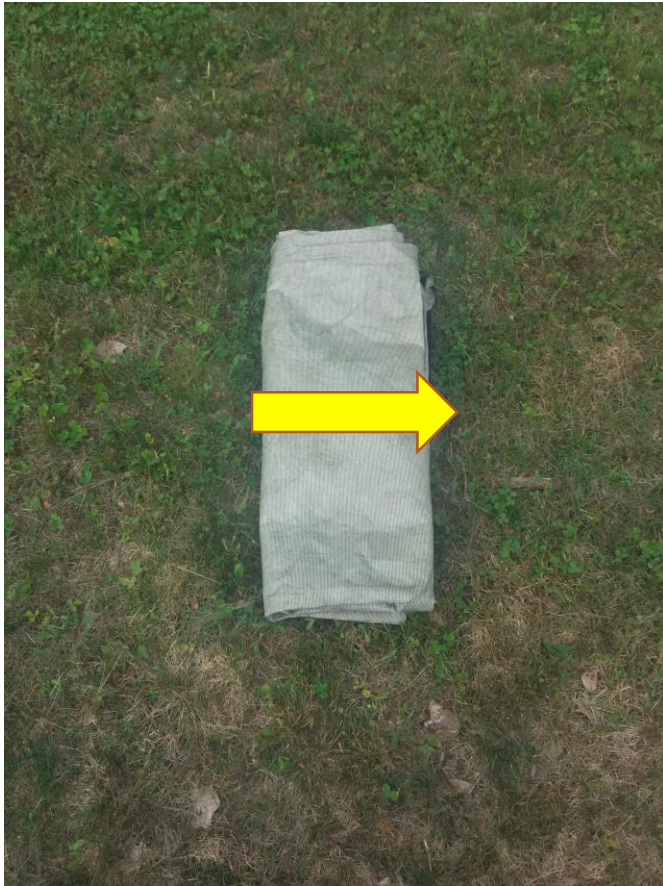

4. Now fold in half side to side

5. Fold again side to side

6. Now tightly roll up and place in storage sack
