

A guide to assembling your Keychain Buttons

STEP 1

- Assemble your button as usual: inserting the shell, [1a] laying your artwork on top, [1b] and placing the mylar on top. [1c]

STEP 2

- Notice the slot on the button back part. [2a]
- Swivel die around until it stops.
- Place the button back part with the slot facing up. [2b]

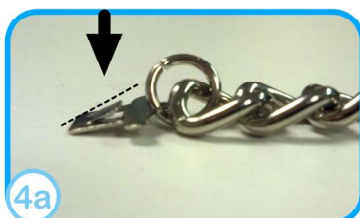

STEP 3

- Push down on the handle as far as the machine allows. [3a]
- Swivel die around until it stops.
- Push down on the handle, making sure that you do not apply too much pressure that could crush the slot. [3b]

STEP 4

- Note the ramp or hook on the tab for the keychain part. [4a]
- Make sure that it is facing towards the artwork when inserting it into the slot. [4b]
