Little Litter Saver™

A New Generation of
Cat Litter Deodorizer

Fresh And Natural

Little Saver is a revolutionary cat litter deodorizer made from natural vermiculite granules, enhanced with a special hydrophobic coating. Our patented technology enables the encapsulation of beneficial essential oils, which are then slowly released to provide a fresh, natural scent. This effectively combats unpleasant odors, ensuring a cleaner and fresher litter box environment for an extended period

Innovative Design

Designed with the comfort of your beloved cat in mind. Once a month, simply sprinkle the contents of one bag into any type of cat litter and mix.

Little Litter Saver uses innovative technology to gradually release calming essential oils. These not only neutralize unpleasant odors but also create a tranquil environment for your cat, extending the life of the litter.

Available in soothing Lavender or fresh Cedarwood scents.

Essential Oils

Not only do essential oils provide a pleasing aroma, they also offer an array of advantages. Ranging from reducing stress to increasing vitality, the oils contained in our products present valuable benefits for both pets and their caretakers.

Extends Life

Made with natural vermiculite and coated with our innovative hydrophobic layer, it extends the longevity of litter or bedding by steadily eradicating odors and sustaining a fresh environment for longer.

Safe for Everyone

Little Saver's special hydrophobic layer also has the advantage of ensuring no contact of the encapsulated essential oils with skin, fur, or feathers. Making it safe and non-abrasive to you or your animal.

15 Weeks of Freshness

Experience long-lasting freshness, our unique slow-release technology ensures a gradual release of essential oils, that lasts longer. One bag keeps the desired area fresh for over a month, and a single pack lasts an impressive 15 weeks!
