CASE STUDY

CHL PROJECT: NETWORK RAIL IN MILTON KEYNES

**Existing door hardware swapped out for CHL's DORMA-Glas
and Avocet products at Network Rail in Milton Keynes.**

One of our customers has successfully swapped out existing hardware with CHL-supplied door hardware on glass partitioning walls in the state-of-the-art Network Rail building in Milton Keynes.

Our core values

Going Further

We advise and supply -- problem-solving around the clock.

Transparency

We're straight-talking to provide the best support.

Quality

We stock superior-quality door hardware with warranties.

Knowledgeable

No call centres. All team members have worked in door hardware for years.

CHL supplies

Sleek & secure door hardware

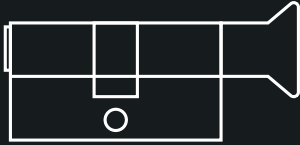

As part of our new range, the customer purchased DORMA-Glas and Avocet hardware for a superior look and finish to suit the building's aesthetics and security requirements.

The project required 100 DORMA-Glas Rondo Lever Handle On Rose and 100 Rondo Lock with Euro Cutout.

“With their slender shape and elegant design, STUDIO locks optimally accentuate the special character and transparency of glass doors. At the same time, they allow the user to choose between different locking variants (non-lockable, warded lock, profile cylinder).”
DORMA-Glas

dg DORMA
GLAS®

And that's not all

At CHL, we also supplied Avocet Hardware, which included bespoke, high-security 3-star cylinders. We provided 100 ABS Cylinder and turn keyed alike suit plus 50 ABS Design Additional Keys.

It's usual to have multiple keys in large buildings, but Avocet Hardware's locks and keys allow for a set of locks that can be opened with a single key. With superior security, tags are printed with a 24/7/365 phone number on a secure database – the international security register (ISR), which assigns a code to its owner.

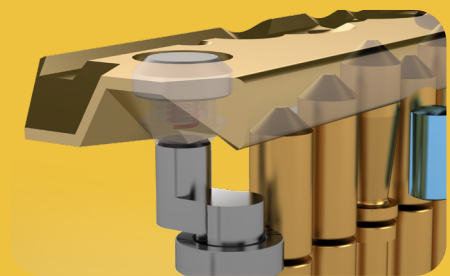

CHL PROJECTS

PRODUCTS:

DORMA-GLAS & AVOCET HARDWARE

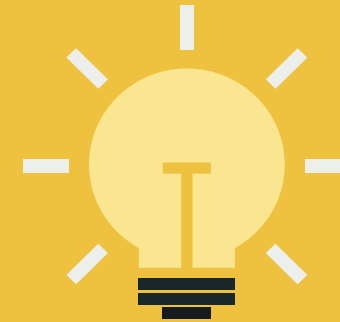

100 x STUDIO RONDO LEVER ON ROSE
100 x ABS SUITED CYLINDERS

THE CHALLENGE

For this project, we had the privilege of working with a highly valued long-term customer. Their specific needs demanded door hardware that not only met the highest standards in terms of visual aesthetics but also excelled in terms of security and convenience.

THE SOLUTION

Dorma-GLAS and Avocet are well-positioned to meet this level of quality, providing our customers, the fitting team, and Network Rail with peace of mind. At CHL, we have a fit-and-forget mentality, ensuring the product can stand the test of time and be reliable once fitted. All door hardware products have excellent warranty periods, and we always price our hardware competitively.

Get in touch

If you are working on a large project that demands superior door hardware at a competitive price, we would love to help assist you.

**CRAIG CLINTON,
SALES DIRECTOR AT CHL, COMMENTED:**

DORMA-Glas and Avocet are ideal as new or replacement products where finish and security are a priority. In this case, we were able to provide quick delivery, great warranties, and a competitive price for our long-term customer.
