The LED High Bay is a brand new replacement solution for fluorescent linear high bay in warehouses, garage locations and any other commercial and industrial applications.

FEATURES
- Quick installation in under five minutes
- Comes with two V-hooks and two chains
- 0-10V dimmable driver
- Multiple mounting options
- Suitable for damp locations
- Minimize labor and recycling costs
- Ease of installation and maintenance
- Glass-free
- 5 year Manufacturer’s Warranty

WARRANTY
This product has a warranty for a period of 5 years from the date of purchase. The warranty is invalid in the case of improper installation, tampering, or removal of the Q.C. date label. Installation in an improper working environment or installation not according to the current edition of the National Electric Code also invalidates the warranty. Should this product fail during the warranty period, it will be replaced free of charge, subject to correct installation and return of the faulty unit. Greentek Energy Systems does not accept responsibility for any installation costs associated with the replacement of this product. This warranty is in addition to the statutory rights in the country of purchase. Greentek Energy Systems reserves the right to alter specifications without prior notice.

**Mounting Procedure**

1. Turn OFF power at the breaker panel before installation.
2. Hook the V-hooks into the dedicated slots on both ends of fixture (A) and secure the chains (B).
3. Mount the fixture by hanging and adjust height.
4. Open the terminal box and connect the AC wires and/or dimming wires (C).
5. Secure close terminal box.
6. Switch ON power to the fixture at the breaker panel.

4. Open the terminal box and connect the AC wires and/or dimming wires (C).
5. Secure close terminal box.
6. Switch ON power to the fixture at the breaker panel.

**CAUTION**

- Risk of fire- do not install this lamp in a pre-heated luminaire.
- Risk of electric shock- make installation with gloves.
- All wiring to be performed per National Electric Code and local code by a qualified electrician.

- If the lamp or luminaire exhibits undesirable operation (i.e. buzzing, flickering, etc.) immediately turn off power and remove the lamp from luminaire and contact manufacturer.
- Do not make mass installation before sample testing.
- High temperatures inside luminaire. Make certain line voltage corresponds with ballast’s primary voltage.
