PLATE ANNOUNCES USPTO HAS GRANTED 6th PATENT PROTECTING ACEM® PISTOL LOADER PLATE, LLC

FORT MYERS, FLORIDA, January 6, 2019 – PLATE LLC announced the issue by the United States Patent and Trademark Office on December 11, 2018 of a new patent covering the company's line of pistol magazine loading devices.

The new patent, US 10,151,547 on an invention by PLATE's founder, Christopher Plate, is entitled "Magazine Ammunition Loader" and includes method and device claims covering magazine loading devices that successively load a plurality of rounds into firearm magazines and permit the rapid loading of pistol magazines. The patent, along with additional pending applications, covers some of the core components incorporated into the company's new line of ACEM® pistol magazine loading devices.

About PLATE

Founded in 2013, PLATE was launched to manufacture its innovative ACEM® line of devices that aid in the loading of rifle magazines. The company has since continued to grow its ACEM® line and is actively developing into additional product areas, including its new PLATE MAG line of polymer magazines.
