

How do I wash my Supergas?

While we do not recommend washing your Superga shoes, you may be able to wash our Cotu styles. The

best way to wash our Cotu (canvas) shoes is in a pillow case, cool wash and powder detergent (not liquid), leave laces on so you don't lose the shape of the shoe and hang to dry naturally, not on a heater.

Please note that you are washing your Superga trainers at your own risk and we do not accept responsibility for any damage that may occur if the above instructions are not followed.

How do I wash my LEATHER Supergas?

The best way to wash our LEATHER shoes is with a small amount of cleaning product (JIFF is a fave), very damp cloth and small bristled brush for the hard to reach places. Leave laces on so you don't lose the shape of the shoe and hang to dry naturally, not on a heater. Please note that you are washing your Superga trainers at your own risk and we do not accept responsibility for any damage that may occur if the above instructions are not followed.
