# Welcome to Tea Trunk

---

This festive season, we invite you to a niche world of artisanal gifting.

Tea Trunk, started in 2013 by India's first Tea Sommelier, Snigdha Manchanda, directly sources garden-fresh teas and premium-quality botanicals from renowned family-run estates and farmer cooperatives across India. We take great pride in the fact that our supply chain has no middlemen, whatsoever.

This reflects in the quality of our products.

With these, we are India's first home-grown brand that started the culture of curating the most unique, artisanal tea blends using 100% Pure and Natural ingredients.

Our blends are whole-leaf, flavourful, and a gift of good health.

We keep our blends 'real', like it should be.

No additives. No preservatives.

Choose from our Holiday Gift Collection 2021, our jubilant gift sets, unique DIY kits, and scrumptious superfood treats. Wrapped in exquisite packaging and customized to your preferences. Our gifts are truly the best way to say that you care.
