

Material Safety Data Sheet

HT

1. Identification of the Substance

identification of the substance: Zirconium dioxide

application / preparation: Alien High Translucency Zirconia Blocks

producer / supplier: Alien Milling Technologies

1345 N. Fitzgerald Ave. Unit F

Rialto, CA 92376 information of emergency: 844-ZIRCONIA

2. Composition / Information on Ingredients

·chem.	pre-sintered, porous ZrO2-Block				
Characterization					
Composition	Percentage	CAS-Nr.	Symbol	R-infos	EG-Nr.
Zirconium dioxide	88-94%	1314-23-4			215-222-7
(ZrO_2)					
Aluminum oxide	0-1%	1344-28-1			215-691-6
(Al ₂ O ₃)					
Yttrium Oxide	4-6%	1314-36-9			215-233-5
(Y_2O_3)					
Ferric oxide	<1%	1309-37-1			215-168-2
(Fe_2O_3)					
Praseodymium	<1%	12037-29-5			234-857-9
oxide (Pr ₂ O ₃)					
Erbium oxide	<1%	12061-16-4			235-045-7
(Er_2O_3)					
Other oxide	<0.5%				
A 1.1929 1 4	d. 1 1 4.0 112.1				

Additional notes: the hazards in chapter 4-8 and 12 do not refer to the product itself but to

the dust released by processing.

3. Hazards Identification

•hazard designation for human and environment: n.a •hazardous / non-hazardous preparation: n.a

·harmful effects to health and environment on do not inhale dust

abuse:

·other hazards based on material: none

4. First Aid Measures

general no special measures are required

information:

after inhalation: supply fresh air. If irritations occur or persist, consult a physician

after skin contact: rinse thoroughly with warm water and soap

after eye contact: rinse eye for several minutes under running water. If symptoms

persist, consult a physician

after swallowing: rinse mouth thoroughly with water. If symptoms persist consult a

physician

information for physician:

5. Fire-Fighting Measures

suitable extinguishing media: n.a.
not suitable extinguishing media: n.a.
hazardous combustion products: n.a.
special protection equipment: n.a.

6. Accidental Release Measures

personal precautions: common use of protective clothing, dust mask and dust

extractor device

environmental do not empty into surface water, ground-water or drain

precautions:

methods of cleaning: absorb mechanically

additional indication: no special measure is required for material in compact shape

7. Handling and Storage

handling: according to instruction sheet

Industrial hygiene: usual hygiene measures are necessary. When using, do not eat

or drink or smoke

storage store break-proof and in dry conditions

fire and explosion n.a.

protection:

8. Exposure Controls/ Personal Protection

exposure limits: TRGS 900 peak limit (4 mg/cm³), inhalable fraction (5 mg/cm³)

use suitable dust extractor device at workstation. Avoid contact with skin, mouth, eve and clothes. Do not eat, drink or smoke

limitation and monitoring n.

to exposure:

imitation and monitoring

to exposure at work

station: respiratory protection: while you are working. Keep away from food and drinks.

use respirator if there is not sufficient extractor device. Do not inhale dust.

hand protection: wear protective gloves, wash your hands after finish work, use

skin care products

eye protection: wear protective glasses skin protection: use protective clothes

limitation and monitoring

to environmental exposure:

9. Physical and Chemical Properties

appearance: solid aggregate state: odour: white

 odourless
 odourless

 PH:
 n.a.

 boiling point:
 about 5,500°C

 flash point:
 not flammable

 auto-flammability:
 not self-igniting

 explosive properties:
 n.a.

 oxidizing properties:
 n.a.

 vapor pressure:
 n.a.

 relative density:
 about 3 gr/cm³

 solubility water / fat:
 insoluble in water

partition coefficient: n.a.
viscosity: n.a.
vapor density: n.a.
evaporation rate: n.a.

other data melting point about 2680°C

10. Stability and Reactivity

conditions to avoid: n.a.
materials to avoid: n.a.
hazardous decomposition products: n.a.

11. Toxicological Information

When used and handled according to the specifications, the product does not have any harmful effects to our experience and the information provided to us. Practical experience has shown that inhalation of dust can irritate respiratory system. Contact with skin can cause mechanical irritations.

12. Ecological Information

If use properly, there are not environmental problems expected. Do not empty into surface water, ground-water or drains.

ecotoxicity: None
mobility: n.a.
persistence / degradability: n.a.
bioaccumulation potential: n.a.
other adverse effects: n.a.

n.a. = not applicable

13. Disposal Considerations

Product and packaging should be disposed to official rules and directives

14. Transportation Information

 un-number:
 n.a.

 class:
 n.a.

 correct identification of goods:
 Alien HT

 packaging group
 n.a.

 ocean harmful substances:
 n.a.

other relevant information: no hazardous good

15. Regulatory Information

Subject to classification: This product is no subject to declaration according to EC rules.

16. Other Information

This safety data sheet is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Instruction for Use

HT

This product should be handled by professional dental technician, sit and adjust by dental specialist and follow doctor's instruction.

Intended use:

Used for dental restoration using different CAD/CAM or manual milling machines. All Blanks are processed through dental laboratories or by dental professionals.

Instruction for use:

- 1. Fix the zirconia blank in the specific clamping device.
- 2. Start the milling process.
- 3. Remove milled crown or bridge from blank and pre-trim with diamond disc.
- 4. Remove the dust from the crown or bridge with air gun.
- 5. Color the crown or bridge with coloring liquid, final-dry frame under infrared lamp.
- 6. Load into furnace.
- 7. Select sintering program and start sintering (see sinter instructions).
- 8. Remove sintered crown or bridge from furnace after the furnace temp drop to room temperature.
- 9. Check crown or bridge on working model for sitting and margin fit. Trim with grinder and polisher if required.
- 10. Clean with brush using water. Do not steam-clean.
- 11. Choose glaze to finish the restoration.
- 12. Now the restoration is ready for the try-in.

⚠ Note:

The product shall be used only by trained personnel. The manufacturer is not liable for any erroneous results, since we have no control if this instruction is properly followed or if the product is appropriately used. Any claims for damages therefore shall be limited exclusively to the commercial value of our products.

please make sure that the dentist has received all of the necessary information for the correct use of the product.

- Caution: Federal Law restricts this device to sale by or on the order of a dentist.
- Medical Device Adverse Event: So far there is no medical device adverse event on this product.
- **Safety instruction:**
 - 1. Avoid collision with hard material, avoid squeeze or shaking.
 - 2. Don't apply to patient before the material is fully sintered.
 - 3. This product should only be handled by dental specialist.
 - 4. Wear suitable face mask to prevent fine dust inhalation. Avoid fine dust air pollution by using the air blaster in short bursts only rather than a continuous flow.
- **Disposal:** The material is not hazardous to the environment.
- Sinter instruction: Follow the back side of box
