

## 2021+ Ford Bronco Console Cover Install

1) Detach velcro straps and slide the back of the cover over the rear corners of the console lid

2) Pull the elastic over the front of the console lid as shown

3) Pull the front corners of the cover over the front of the lid (it may be tight when you do this)

4) Pull the detached velcro straps down until the cover is on all the way and then reattach them

When complete, the underside of the console lid should look like this

This is what the finished cover should look like on the console
