

STEEL CABLE PRIMER

HS-PRI-ST-001

1 Features

- A single component primer designed to enhance the bond of bare or exposed steel cable to rubber in a hot vulcanized splice.
- Proven to enhance adhesion values of bare steel cables to replacement tie gum
- Can be applied directly to any exposed steel cabling within the splice
- Compatible with all major belt manufacturer specs.
- 12 month shelf life (stored at 10°C / 50°F)
- Flammable

2 Technical Data

Base Polymer	Mix of Polymers
Solids (wt.)	20-25%
Flash Point	5-10°C (41-50°F)
Operating Temp.	-40°C to 176°C (-40°F to 350°F)
Cement Colour	Black
Coverage	144 ft ² per quart

3 Sizes & SKU's

SKU	Sizes (Weight)
HS-PRIM-ST-001	Quart (700g)
