

AromaRama Bluetooth App – Diffuser Setup & Schedule Guide

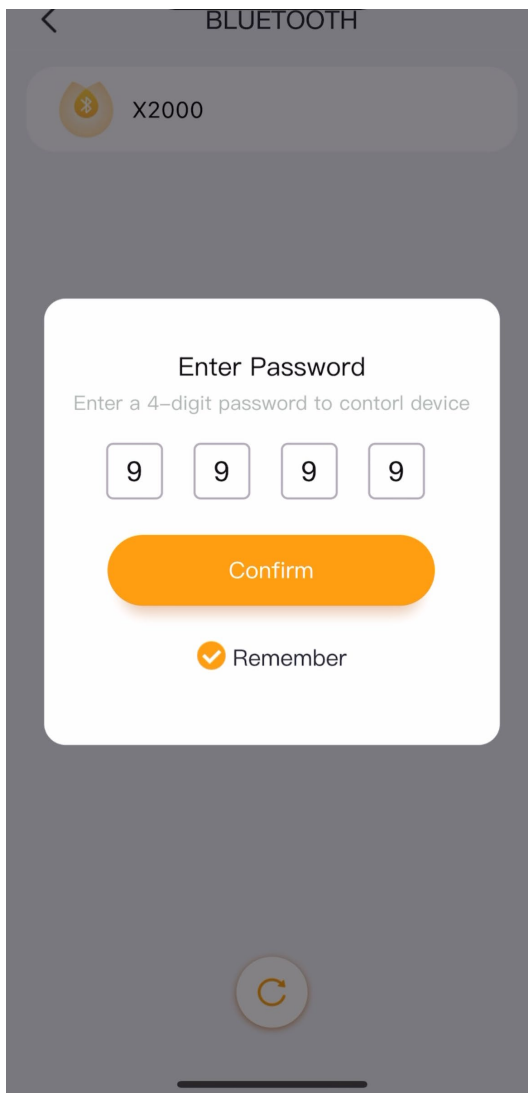

Step 1: Launch the AromaRama App

Open the Bluetooth App on your mobile device. Ensure your diffuser is powered on and within Bluetooth range.

Step 2: Connect to Your Device

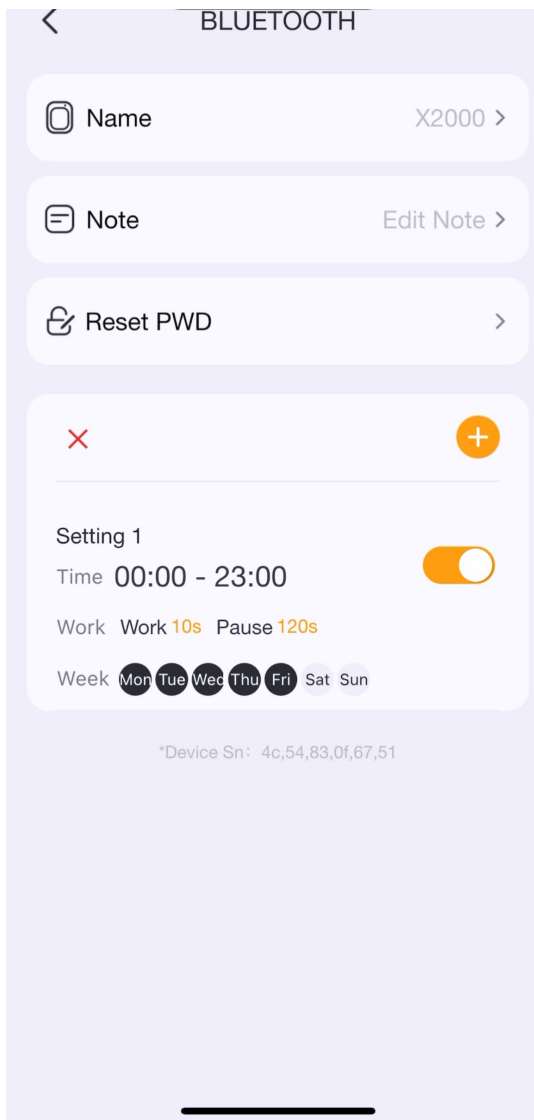

The app will automatically scan for nearby AromaRama diffusers. Tap on your device from the list to connect. A password field will appear and will autofill the password 9999.

Step 3: Access the Settings

Once connected, tap your device to open its control panel.

Select "Setting 1" to begin configuring your work schedule and intensity.

Step 4: Set Operating Times and Intensity

Inside Setting 1, configure Start & End Time, Work Time, Pause Time.

Example: Start 08:00, Stop 21:00, Work 10s, Pause 120s.

The screenshot shows a mobile application interface for configuring a device. At the top, there is a header bar with a back arrow and the text "BLUETOOTH". Below this is a section for "Name" with a value of "X2000" and a right arrow. The main content area is titled "Setting 1" and has three buttons: "Cancel", "Setting 1", and "Confirm".

Under "Setting 1", there are three sections:

- Week:** A calendar icon followed by the word "Week". Below it are seven circular buttons for the days of the week: Mon, Tue, Wed, Thu, Fri, Sat, and Sun. Mon, Tue, Wed, Thu, and Fri are dark grey, while Sat and Sun are light grey.
- Period Time:** A clock icon followed by the text "Period Time". Below this are two columns of time selection. The left column is labeled "Start" and has three rows of time: 08, 09 : 00, and 10 01. The right column is labeled "End" and has three rows of time: 20, 21 : 00, and 22 01.
- Frequency:** A waveform icon followed by the text "Frequency". Below this are two columns of frequency selection. The left column is labeled "Work" and has three rows of time: 9s, 10s, and 11s. The right column is labeled "Pause" and has three rows of time: 110s, 120s, and 130s.

Step 5: Select Active Days

To choose which days of the week the diffuser should follow this schedule:

Tap the day to toggle between active (black) and inactive (white).

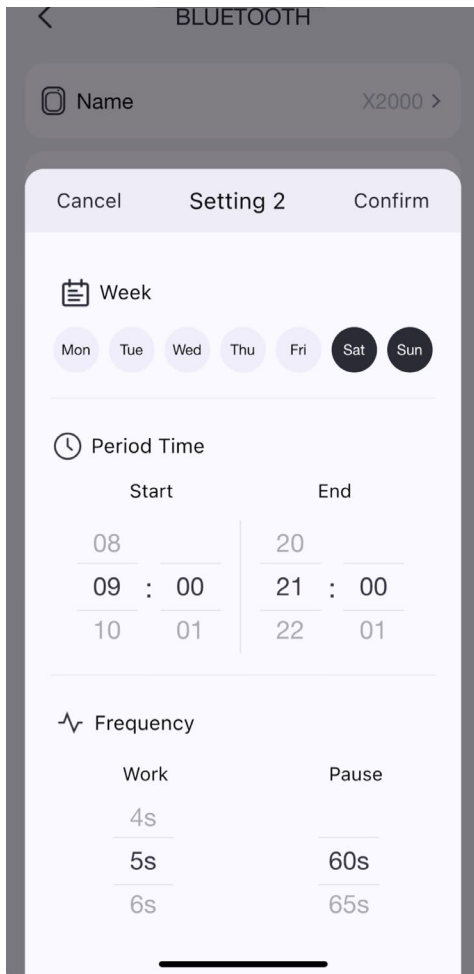

Black = Day is included in the schedule

White = Day is excluded and the diffuser will not run

💡 Ensure the correct days are highlighted in black before saving your schedule.

Optional: Add More Schedules

You can repeat the process using Setting 2, 3, etc. to set up different schedules for different times or days.

Step 6: Save and Apply Settings

Once everything is configured, tap 'Save' to activate your settings. The diffuser will now run automatically on the chosen schedule.
