OVERVIEW

Welcome to The Mandatory Training Group's online Care Planning and Record Keeping training course for front-line healthcare and social care providers. All our online training courses, programmes and qualifications are accredited by the CPD Certification Service (CPDUK).

Care plans provide direction for individualised care of the client. A care plan flows from each patient's unique list of diagnoses and should be organised by the individual's specific needs. The care plan is a means of communicating and coordinating the actions of a constantly changing nursing staff.

Clinical and care records include a wide variety of documents generated on, or on behalf of, all the health professionals involved in patient care. This includes handwritten clinical notes and computerised/electronic clinical records.
