Lab 1 ..... Getting Started with P6 6

About Primavera P6 Professional 6
Opening Primavera P6 Professional 8
What is the Enterprise Project Structure (EPS) 9
Creating a Schedule with P6 10
Working with the Bottom Window of the Screen 12
Adding and Removing Buttons To and From the Toolbar 12
Adding Activities and Duration 14
Opening a Project in P6 14
Verifying the Default Sort to Sorted by Activity ID 14
Adding Activities in P6 15
Adding Durations 19
Finding the Bars in the Gantt Chart 19
Saving the Project in P6 19
Moving the Vertical Split Bar 20
Print Preview 20
Adding Logic to the Schedule 24
Relationship Types 24
Lag Time 25
Lead Time 25
Lag -vs- Lead Time – *and* – Schedule Logic 25
Automatic Calculation Feature 26
Activity Details (a.k.a. Details) Window 26
Opening and Customizing the Activity Details (a.k.a. Details) Window 27
Adding Logic 28
Adding Logic to the Schedule Using the Successors Window 29
Adding Logic to the Schedule Using Drag and Drop 32
Entering the Remaining Logic 34
Hand-Drawn Schedule 35
Hand-Drawn Schedule with Hand-Calculations 37
Total Float - vs - Free Float 37
Exporting (Saving) P6 Project Files to a Flash Drive or a Hard Drive 38
Importing a P6 Project Files from a Flash Drive or a Hard Drive 39
Creating and Saving P6 Project Files as a PDF File 41
E-mailing P6 Project Files 42
Schedule Analysis – Lab #1 45

Lab 2 Layouts and Customizing the Schedule 47

Opening an Existing Project Schedule 47
Copying an Existing Project Schedule 47

Renaming an Existing Project Schedule 48
Moving the Vertical and Horizontal Split Bars 49
Creating Custom Layouts 50
Creating a New Layout by Saving a Layout after Changes 50
Opening and Applying Existing Layouts 52
Customizing the Look of the Schedule 59
Formatting Columns 59
Formatting Bars and Turning On the Relationship Lines 62
Formatting the Timescale 63
Formatting the Font 64
Sorting Activities by the Early Start 64
Customizing the Header, Footer, and Page Setup 65
Schedule Analysis – Lab #2 69

Lab 3 ..... Working with Calendars 71
Copying an Existing Project Schedule 71
Renaming an Existing Project Schedule 72
Creating the Lab #3a (before Calendar changes) Layout 73
Creating a Holiday Calendar 76
Assigning a Calendar to Schedule Activities Using the Details Window 79
Assigning a Calendar to Activities Using the Calendar Column 79
Weather Calendars 84
Creating Weather Calendars 85
100% Weather Calendar 85
50% Weather Calendar 88
Assigning the Weather Calendars 90
Schedule Analysis – Lab #3 93

Lab 4 ..... Activity Codes and Summary Schedules 95
Work Breakdown Structures (WBS) - vs - Activity Codes 95
Creating Activity Codes 98
Assigning Code Values to Activities Using the Details Window 99
Assigning Code Values to Activities Using Columns 100
Grouping by Activity Codes 104
Formatting Activity Code Separation Band Colors 106
Formatting Code Description Fonts 106
Creating Summary Schedules Using Activity Codes 109
Work Breakdown Structures 112
Creating Work Breakdown Structures (WBS) 112
Turning On the WBS Codes 115
Assigning (WBS) Codes to Activities 116
Formatting WBS Code Separation Band Colors and Code Description Fonts . 117
Schedule Analysis – Lab #4 121

Lab 5 ..... Working with Resources 123

Resource Loading 123
Assigning Resources to Activities 124
Reviewing the Resource Assignments Window 127
Reviewing the Activity Usage Profile 134
Cost Loading 142
Assigning Cost Resources to Activities 135
Schedule Analysis – Lab #5 147

Lab 6 ..... Updating the Schedule 149

Setting Baselines 150
Making a Baseline of the Baseline 150
Format the Columns in Preparation for the Baseline Schedule 151
Setting and Displaying the Baseline 151
Getting Ready for the Update 154
Adding Columns for the Update Schedule 156
Customizing the Actual Work Bar 157
Adding Percent Complete (% Complete) to the Bars 157
Two Extremely Important Setting 158
Updating the Schedule 159
The Tracking Log 159
Process of Updating the Schedule 160
Three Step Process of Updating the Schedule in P6 160
Possible Updating Scenarios 161
The Update Scenario for this Project: 162
Step 1: Updating Individual Activities 162
Updating Milestone Activities 162
Updating Hammock (Level of Effort) Activities 163
Updating with Actual Start and Actual Finish Dates (3rd Update Scenario) 163
Analyzing the Schedule 164
Adding Notes to Activities 165
Updating with Actual Start and Remaining Duration (4th Update Scenario) 167
Step 2: Moving the Data Date Forward 168
Step 3: Re-scheduling the Project Schedule 169
The Progress Line in P6 169
The Data Date Line in P6 170
Schedule Analysis – Lab #6 177

Lab 7 ***.....Filters and Look-Ahead Schedules*** 179
Applying an Existing Pre-Defined Filter 180
Combining Pre-Defined Filters 183
Look-Ahead Schedule 187
Creating a Customized Filter – Six Week Look-Ahead Schedule 188
Schedule Analysis – Lab #7 193

Lab 8 .....***Creating Multi-Phase Schedules*** 195
Copying Activities 196
Adding Activities to an Existing Schedule 197
Adding Logic to Multi-Phase Schedules 198
Schedule Analysis – Lab #8 209

Lab 9 ..... ***Working with Reports*** 211
Applying an Existing Pre-Defined Report 211
Creating a Customized Report 217
Schedule Analysis – Lab #9 219
