IN-LINE CONNECTIONS

- **FASTER, STRONGER, BETTER**
- **VIBRATION PROOF**
- **HIGH TEMP**
- **REUSABLE**
- **OEM SPECIFIED**

EASY AS 1-2-3

1. Strip wire 1/2"

2. Insert

3. Hand Tighten

NO CRIMPING

NO TOOLS NEEDED

Our patented design delivers a superior connection to crimping with only wire stripping required. Wire ends are locked between opposing cone shapes when hand tightened, resulting in a positive, strong connection.

1. Strip wire

Rubber seal completely seals around wire insulation.

2. Insert

Rubber seal on threads completely seals out contaminants.

WEATHERTITE CONNECTION COMPLETE!

NO CRIMPING

NO TOOLS NEEDED

Our connector technology and patented design mold seals and nylon together to seal out contaminants. Both areas of intrusion, threads and wire insulations are sealed eliminating the need for heat shrink or dielectric grease.
