## **Part 1 Ichthyosaur Specimens and Palaeontology**

### *Chapter 1: Introduction*

- 1.1 Ichthyosaur fossils
- 1.2 The anatomy of ichthyosaurs
  - 1.2a Introduction
  - 1.2b Skull
  - 1.2c Vertebral column and ribs
  - 1.2d Pectoral girdle and limbs
  - 1.2e Pelvic girdle and limbs

### *Chapter 2: Fossilization*

- 2.1 Sea-floor processes and burial
- 2.2 Lagerstätten
- 2.3 Mineralization
- 2.4 Compaction
- 2.5 Soft part preservation

### *Chapter 3: Curating ichthyosaurs: management of the NHM collection*

- 3.1 Introduction
- 3.2 Acquisitions
- 3.3 Documentation
- 3.4 Specimen- and drawer-labels
- 3.5 Electronic catalogue
- 3.6 Re-location of the collection
- 3.7 Valuations

### *Chapter 4: The occurrence of ichthyosaurs in time and space*

## **Part 2 Ichthyosaur Palaeobiology**

### *Chapter 5: Evolution*

- 5.1 Introduction
- 5.2 Classification and phylogeny: relationships between ichthyosaur groups
- 5.3 Evolutionary history of ichthyosaurs
  - 5.3a Early Triassic: Ichthyosauriformes
  - 5.3b Early Triassic: Basal ichthyosaurs
  - 5.3c Middle to Late Triassic: Intermediate ichthyosaurs
  - 5.3d Late Triassic to mid Cretaceous: Euichthyosauria

### *Chapter 6: Reproduction, development and growth*

- 6.1 Reproduction
- 6.2 Development and genetics
  - 6.2a Hox genes and body plans
  - 6.2b Tetrapod evolution and genetics

- 6.2c Development of limbs in ichthyosaurs
- 6.2d Development of the backbone in ichthyosaurs
- 6.3 Growth

*Chapter 7: Vision and other senses*

- 7.1 Vision
  - 7.1a Eyeball size, visual sensitivity and acuity
  - 7.1b Colour vision
- 7.2 Other senses

*Chapter 8: Feeding and diet*

- 8.1 Dentition and feeding guilds
- 8.2 Feeding strategies
- 8.3 Diet
  - 8.3a Information from coprolites
  - 8.3b Fish
  - 8.3c Cephalopods
    - Ammonoids and nautiloids
    - Coleoids

*Chapter 9: Locomotion*

- 9.1 Streamlining and skin structure
- 9.2 Limbs
- 9.3 Caudal fins
- 9.4 Swimming styles
- 9.5 Metabolism
- 9.6 Speed of sustained swimming

*Chapter 10: Injury, disease, mortality and extinction*

- 10.1 Injury and disease
- 10.2 Mortality
- 10.3 Extinction

**Part 3 The Early Jurassic Ichthyosaurs of Britain**

*Chapter 11: Creation of the NHM British Early Jurassic ichthyosaur collection*

*Chapter 12: The geological context of British Early Jurassic ichthyosaurs*

- 12.1 Palaeogeography and palaeoclimatology
  - 12.1a Sea level
  - 12.1b Climate
- 12.2 Sediment deposition and preservation of Early Jurassic ichthyosaurs
  - 12.2a Factors that inhibited the preservation of ichthyosaurs
  - 12.2b Marls and laminated shales
  - 12.2c Limestones and marls
- 12.3 Outline description of the stratigraphy of the Devon/Dorset coast (Lyme Regis to Seatown)
  - 12.3a Ammonites and biostratigraphy

- 12.3b Lithostratigraphy
- 12.4 Stratigraphic records of Early Jurassic ichthyosaurs from Britain
  - 12.4a Records from Lyme Regis and Charmouth
  - 12.4b Records from other localities in southern England
- 12.5 Introduction to the species descriptions
  - 12.5a Nomenclature
  - 12.5b History of nomenclature
  - 12.5c Descriptions
  - 12.5d Potential for undescribed species

*Chapter 13: Family Temnodontosauridae McGowan, 1974a*

- 13.1 Genus Temnodontosaurus Lyddeker, 1889c
  - 13.1a Species Temnodontosaurus platyodon (Conybeare, 1822)
  - 13.1b Species Temnodontosaurus eurycephalus McGowan, 1974a
  - 13.1c Species Temnodontosaurus crassimanus (Blake, 1876)
  - 13.1d Species Temnodontosaurus acutirostris (Owen, 1840)

*Chapter 14: Family Leptonectidae Maisch, 1998b*

- 14.1 Genus Leptonectes McGowan, 1996b
  - 14.1a Species Leptonectes tenuirostris (Conybeare, 1822)
  - 14.1b Species Leptonectes solei (McGowan, 1993)
  - 14.1c Species Leptonectes moorei McGowan and Milner, 1999
- 14.2 Genus Excalibosaurus McGowan, 1986
  - 14.2a Species Excalibosaurus costini McGowan, 1986
- 14.3 Genus Eurhinosaurus Abel, 1909
  - 14.3a Species Eurhinosaurus longirostris (Mantell, 1851)
- 14.4 Genus Wahlisaurus Lomax, 2017
  - 14.4a Species Wahlisaurus massarae Lomax, 2017

*Chapter 15: Family Ichthyosauridae Bonaparte, 1841*

- 15.1 Genus Ichthyosaurus De la Beche and Conybeare, 1821
  - 15.1a Species Ichthyosaurus communis Conybeare, 1821
  - 15.1b Species Ichthyosaurus breviceps Owen, 1881
  - 15.1c Species Ichthyosaurus conybeari Lyddeker, 1888
  - 15.1d Species Ichthyosaurus anningae Lomax and Massare, 2015
  - 15.1e Species Ichthyosaurus larkini Lomax and Massare, 2017
  - 15.1f Species Ichthyosaurus somersetensis Lomax and Massare, 2017
- 15.2 Genus Protoichthyosaurus Appleby, 1979
  - 15.2a Species Protoichthyosaurus prostaxalis Appleby, 1979
  - 15.2b Species Protoichthyosaurus applebyi Lomax et al., 2017

*Chapter 16: Family Stenopterygiidae Woodward in von Zittel, 1932*

- 16.1 Genus Stenopterygius Jaekel, 1904
  - 16.1a Stenopterygius quadriscissus (Quenstedt, 1856)
  - 16.1b Stenopterygius triscissus (Quenstedt, 1856)
- 16.2 Genus Hauffiopteryx Maisch, 2008
  - 16.2a Species Hauffiopteryx typicus Maisch, 2008

*Chapter 17: Synthesis: the distribution of Early Jurassic ichthyosaurs in Britain*

17.1 Distribution in space

17.2 Distribution in time

17.3 Ecological interactions

Appendix 1: Institutional catalogue codes

Appendix 2: Institutions possessing specimens of British Early Jurassic ichthyosaurs

Appendix 3: British specimens of genus *Temnodontosaurus*

Appendix 4: British specimens of genera *Leptonectes*, *Wahlisaurus*, *Excalibosaurus* and *Eurhinosaurus*

Appendix 5: British specimens of genera *Ichthyosaurus* and *Protoichthyosaurus*

Appendix 6: British specimens of genera *Stenopterygius* and *Hauffiopteryx*
