

PVLP156X Vertical Leg Press

POWERLINE USA[®]
by Body-Solid

PVLP156X Vertical Leg Press

The Powerline PVLP156X Vertical Leg Press provides an impressive platform for obtaining huge muscle gains through isolated lower body workouts. The unique vertical design not only reinforces support for your back and hips, but also minimizes space used to perform the exercises.

An extra-thick back pad and contoured head and neck pad lock you into the proper exercise position while providing comfort during your leg press or calf raise routines. Features include dual adjustable 1/2" steel locking pins, three different starting and stopping positions and a diamond plate steel press deck for no-slip control. Three standard size plate posts allow increased resistance for a progressive challenge every time you work out. Durable steel with electrostatically applied powder coat finish.

Weight: 93 lbs
Dimensions: 46"L x 48"W x 54"H (extends to 61"H)

Special Features

- Three 1" diameter weight posts
- Extra-wide foot plate with no-slip design
