SDIB370

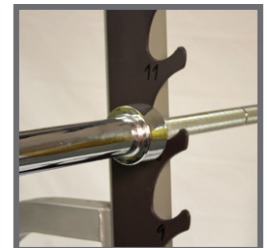

Pro ClubLine - Olympic Press System

The Bench/Rack combination gives users the ability to utilize squats, bench presses, incline and shoulder presses in a small space efficient footprint. Designed with an extra-wide 4-point stance, the SDIB370 is a rock-solid performer that features a 7° reverse pitch that accommodates your body's natural lifting path. Lift-off and safety positions are right where you want them so racking the bar is always comfortable and predictable. Equipped with a full Adjustable bench, the SDIB370 is designed to meet any facility's requirements without breaking the bank.

Dimensions: 75" L x 64" W x 74" H
Weight: 225 lbs.

Special Features

- Mainframe uprights set to a 7° reverse pitch
- Includes oversized 17" long safeties
- 14 position gunrack
- Back pad adjusts flat, incline (15, 30, 45, 60 and 80°) and decline (-18°)
- Independent back pad and seat pad adjustments
- Transport wheels for easy movement
- Features 4 Olympic storage posts
- 1000 lb capacity tested
