RS-130 and RS-160

BATTERY-OPERATED PRICE COMPUTING SCALES

Accurate, Affordable and Portable

The RS-130 and RS-160 retail scales are the ultimate choice for simple price computing applications. Delivering unmatched convenience and accuracy, the RS-130 and RS-160 provide one-button operation with weight displays in either pounds, kilograms or ounces.

For added convenience, the RS-130 and RS-160 can toggle units of measure and save tare, price and nine direct price lookups. Cash back calculation allows you to quickly provide cash back for applications where a cash register is not present. The scales' large, stainless steel platters provide ample room for product, and standard in-use covers assure years of trouble-free operation.

The RS-130 and RS-160 are NTEP Certified and powered by an included rechargeable battery. A low-battery annunciator signals the operator when it's time to recharge. The RS-130 and RS-160 offer the most accurate, portable and affordable solutions for simple price computing needs.

RS-160 pole model

Easy-to-read displays on the back of the RS-130 and RS-160 allow viewing by the customer.
