ACOUSTIC PET FELT

CLEANING & MAINTENANCE

Harmony PET Felt is easy to clean and maintain. Most stains can be removed with plenty of water.

GENERAL CARE

- Periodic dusting and vacuuming helps to maintain panel appearance. Dust with a soft cloth. When vacuuming, use low suction function and a soft brush attachment.
- Avoid installing colored panels in a location that is subject to prolonged periods of direct sunlight or heat.

PROFESSIONAL CLEANING

Inhabit recommends contacting a professional cleaning service for thorough panel cleaning where required. The effectiveness of any cleaning program depends on careful supervision, trained personnel and the use of correct equipment and chemicals.

SPOT CLEANING

- Spills, marks and stains should be addressed and treated as soon as possible.
- Test any proposed cleaning method on an inconspicuous section before proceeding, and take extra care when cleaning dark colors.
- Use a mild soap and warm water solution to gently scrape soil or mop liquid from the surface of the product.
- Use a soft sponge or cloth to apply a blotting technique.
- Apply minimal pressure and avoid scrubbing or concentrated rubbing.
- Avoid using excessive amounts of water or other cleaning liquids. If required, ensure adequate ventilation so that the panel can dry.
- When the stain or mark has been removed, mop moisture with a dry clean cloth using a blotting technique.
- Allow the panel to dry away from direct heat and sunlight.
