ACOUSTIC PET FELT HANGING 3D PANELS

STEP 1
Attach Hooks or Hanging Forks (optional) to the cable.

Attach connector to your ceiling, then attach to the cable.

STEP 2
Cnnnect first row of 3D Panels to hangers. Then use included rings or forks (optional) to connect 3D Panels to each other.
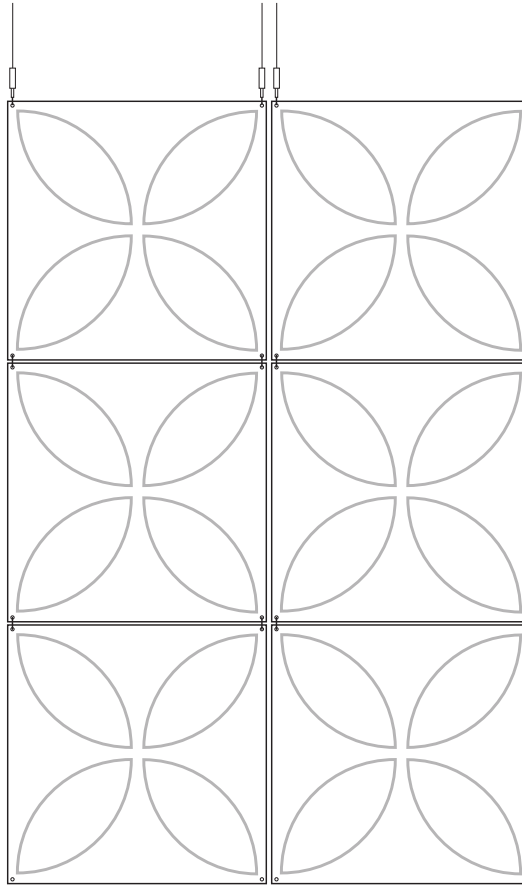

If connecting with forks, use provided allen wrench to tighten set screw.

If using Rings, be sure to click the ring together.

If hanging 3D Panels back to back as a room divider, use included glue tabs in the center of the 2 vertical sides to close any gap.

For Drop Ceiling or Split Beam connector hook over the connector.

NOTE: If using Drop Ceiling or Split Beam connector be sure to check that the set screws on thecable loop are tight.

+
ROWS OF PANELS CAN BE ADDED TO LENGTHEN
