

CLEANSMART BRINGS YOU AUTOMATION!

MEET WHIZ

Whiz is an intelligent vacuum sweeper that handles soft surface cleaning. Whiz is quiet at only 62dB which allows for day time usage. It can clean up to 15,000 sq.ft on a single charge. Powered by BrainOS it can navigate complex environments and work along side staff. It is easy to setup, after you train the route once, it cleans at the click of a button.

MEET EMMA

EMMA, the RS-26-AU, is an intelligent floor scrubber that handles hard surface cleaning. It can clean up to 115,000sq.ft. in autonomous mode on a single charge and up to 184,000sq.ft manually. Powered by BrainOS its sensors detect and avoid people and obstacles. It is easy to setup, after you train the route once, it cleans with the click of a button.

BENEFITS OF AUTOMATION

-  Increase cleaning consistency and frequency
-  Standardize cleaning routes
-  Track KPIs and use data to improve speed and performance over time
-  Reduce the impact of absenteeism and turnover
-  Cloud Robotics provides alerts, data usage, reporting and software updates
-  Subscription model eliminates large upfront investment
-  All service and parts are included in monthly fee
-  Easy to use and virtual training available
-  Powered by BrainOS®, an advanced vision-based A.I. system
-  Designed to work safely and efficiently alongside employees

COSTS

Offered as a unique subscription model on all cleaning equipment. Skip the capital investment and pay a monthly subscription fee that includes all maintenance, repairs and parts. Get access to the most up-date software with our swap model.

And cancel any time if you aren't completely satisfied with your subscription.

Whiz: \$499 a month

EMMA: \$1,799 a month

How to train your team?

We offer a variety of training options:
