

**Step 1. Disinfect w/ Enviro-Pro**

**Step 2. Install ThinkLite Bulbs**

**Step 3. Apply PURETi which is activated by ThinkLite**

**Step 4. Enjoy Cleaner, Safer Air at Little or NO Cost for years to come through this Unique Energy Saving Program!**  
*(To qualified locations)*

For info on how Pureti relates to Covid-19 visit: <http://pureti.com/resources/covid19.html>

**Experience for yourself – Set up a test in your facility!**

**Sample Test:**

- 1: Measure current air VOC levels in test area and areas surrounding test area
- 2: Perform the 4-step program; check the VOC ratings after steps are implemented in the test area and compare results with VOC ratings outside test area

**ENJOY Cleaner, Safer Air!**

You will be able to *smell* the difference cleaner indoor air provides

**ThinkLite + PURETi**  
**Smart Energy Saving LED Lighting that Cleans the Air**

HYPER EFFICIENT, DRIVERLESS LED FIXTURES ACTIVATE THE POWER OF PURETi TO SAFELY, CONTINUOUSLY AND MEASURABLY IMPROVE INDOOR AIR QUALITY

**COVID-19 is a Respiratory Challenge**

*EnviroPro+ThinkLite+pureti lowers the respiratory burden while saving energy. "Pureti is a NASA dual use technology proven to improve air quality"*

**Options:**

- 1: On-going VOC monitoring after the system is installed to monitor its continued effectiveness
- 2: Smart lights VOC monitoring. The sensor will adjust the UVA produced by smart LED's as it detects changes in VOC levels for consistent clean air.  
NOTE: you will not notice anything different in the lighting
- 3: Smart controls added functionality, efficiency, and safety

**Improve Air Quality with ZERO Capital Expenditure/At NO Cost to You!**

*Shared energy saving agreement covers fixturing and Pureti application*

**Improve IAQ by >40% and Save on Lighting Energy Usage by >20%**

*ThinkLite Driverless LEDS deliver 200 lumens per watt and activate Pureti on walls, windows, ceilings, and fixtures*

**Contact CleanSmart!**

CleanSmart, a NJ environmental solutions consultancy will work to implement this zero cap-ex initiative to **qualified locations**

Contact CleanSmart to help you create a complete hygiene system for your facility including disinfecting & health monitoring robots, liquid glass nano technology coatings for all floors
