

100% natural bath and body oil ingredients

Our exquisite 100% all-natural bath and body oil collections are scented with pure botanicals, to lift your mood, detoxify your mind, and renew your emotional and spiritual balance.

As a brand, we steer clear of parabens - chemicals that can affect hormone levels and may promote the growth of cancerous cells. We also chose not to use PEGs, DEA, TEA or any petrochemicals in any of our products because of the serious health risk they pose if they become contaminated by 1,4-dioxane during their production. Finally, we never use synthetic colours, silicones, EDTA or triclosan, all of which can also have adverse effects on the body.

INCI name	Function and benefits
Rosmarinus Officinalis (Rosemary) leaf oil	A fantastic detoxifying agent, this oil helps to remove toxins from the body. When inhaled, it can boost mental energy and clear the respiratory tract acting as a great de-stresser.
Silybum Marianum (Milk Thistle) seed oil	Used for over 2,000 years this miracle herb has a whole range of amazing properties, it removes toxins from the liver, has anti-aging effects and aids against migraines and dizziness.
Polyglyceryl- 3 Diisostearate	100% vegetable derived, this emulsifier is added to our bath oils to help the droplets disperse evenly in the bath to ensure you have a perfect luxurious experience.
Cananga Odorata (Ylang Ylang) flower oil	Translated as 'flower of flowers', ylang ylang is said to support emotional and spiritual balance. This exotically sweet scent creates a euphoric environment while also having a calming and sedative effect.
Vitis Vinifera (Grape) seed oil	Possessing regenerative and restructuring qualities, grapeseed oil is an incredible moisturiser. This oil helps reduce the appearance of stretch marks and scars on your body.
Sesamum Indicum (Sesame) seed oil	Sesame oil gives your skin a nice and silky texture, making it an excellent moisturiser. Sesame oil is also rich in vitamin E, D and B complex, which makes it effective enough to reduce scars and other rashes on the skin. This oil penetrates your skin deeply and it can regulate your blood circulation.

Oenothera Biennis (Evening Primrose) oil	This nourishing oil acts as an anti-inflammatory and has incredible moisturising properties, reduces hyperpigmentation and gives your skin a healthy glow.
Simmondsia Chinensis (Jojoba) seed oil	The components found in jojoba oil almost instantly absorb into the skin, making this oil extremely moisturising and hydrating for your skin.
Triticum Vulgare (Wheatgerm) oil	While possessing fantastic moisturising properties, wheatgerm oil also delivers a healthy infusion of vitamins and antioxidants to the skin. Wheatgerm oil is also a rich source of vitamin E, which helps reduce skin damage, fight free radicals and maintain an even skin tone.
Cedrus Atlantica bark oil	Used by Tibetan monks to facilitate meditation, cedarwood oil gives a warm and uplifting aroma with a woody undertone. This oil helps relieve stress and promotes calm and comfort.
Zingiber Officinale (Ginger) root oil	Awakening your senses, this zingy oil reduces stress, reduces inflammation and aids digestion all whilst giving the most amazing fragrance!
Juniperus Communis (Juniper Berry) fruit oil	Anciently used as incense to keep evil spirits away, this natural antiseptic has detoxifying and cleansing properties for the body.
Lavandula Angustifolia (Lavender) flower oil	Extracted directly from the flowers of the lavender plant, this wonderfully versatile oil induces sleep, relieves stress and anxiety, improves blood circulation and relieves pain.
Cymbopogon Schoenanthus (Lemongrass) oil	Due to its invigorating and antiseptic properties lemongrass oil is widely used in aromatherapy to help body aches and muscle pains while also uplifting your mood with its incredibly citrusy scent.
Citrus Aurantium Bergamia (Bergamot) fruit oil	Well known for giving Earl Grey tea its distinctive scent, this citrus fruit derived oil not only relaxes the body and mind but also helps heal marks and maintains a smooth skin tone by maintaining an even distribution of skin pigments.
Rosa Damascena flower extract	Whilst giving the most amazing floral scent, Rosa Damascena, also known as Rose Damask, promotes a sense of calm, relief and happiness! This incredible oil also has skin conditioning properties that will leave you with silky smooth skin.
Cymbopogon Martini (Palmarosa) oil	Also known as East Indian and Turkish geranium, palmarosa oil calms the mind clearing muddled thinking, yet has an uplifting effect. It is used to help exhaustion, stress, nervousness and has incredible moisturising properties.
Citrus Paradisi (Pink Grapefruit) oil	With a wonderful citrus scent, this oil helps dull skin, water retention and prevents toxin build up.

Amyris Balsamifera (Sandalwood) bark oil	A great antiseptic agent with a sweet, woody scent, Sandalwood Amyris oil relieves skin from inflammation and irritation, helps cure infections and keeps you feeling refreshed.
Tocopherol (Vitamin E)	Widely known as a powerful antioxidant that has anti-aging properties, Vitamin E is also famed for being a natural moisturiser leaving you with wonderful, hydrated skin.
