Story Frame

An overview of The Soap Co.

The Soap Co. is an ethical luxury brand that creates sophisticated cruelty-free body care products that are good for skin, good for the environment, good for everyone. We use only natural botanicals, nourishing vitamins and pure essentials oils and our products are paraben and cruelty-free, as well as being produced in the UK.

Our Eco collection contains bee friendly borage and calendula botanicals, and is vegan, biodegradable and not harmful to aquatic life.

These products are perfect for executive, or visitor bathrooms, especially when accompanied by our Story Frame.

On top of all of this, these eco products are available in refillable, infinitely recyclable bottles and every 5 litre container sold, creates 2 hours of employment.
