514-418-2797

At Greta's Family Gardens, we offer many seeds of old-fashioned variety which are famous for their uniqueness in taste and look, and can vary greatly from what we conventionally find at the grocery store.

By growing these older varieties, you help to preserve our planet's vegetable heritage, which is rapidly being replaced by hybrids and genetically altered varieties.

Seed packs are \$3.50 CDN*

We accept VISA, MasterCard, AMEX, Interac and Paypal

Please order through the website **

Agriculture and seeds provide the basis upon which our lives depend. We must protect this foundation as a safe and genetically stable source for the future generations of all; including farmers, gardeners AND consumers.

We pledge that we do not knowingly buy or sell genetically engineered seeds.

The mechanical transfer of genetic material outside of natural reproductive methods and between genera, families or kingdoms, poses great biological risks as well as economic, political and cultural threats. We feel that genetically engineered varieties have been insufficiently tested prior to public release. More research and testing are necessary to further assess the potential risks of genetically engineered seeds.

ASPARAGUS ~50 seeds 3.50\$

5241 - UC157 Asparagus Outstanding variety for the Coast and mild climate areas. This variety gives earlier production and heavier total yields than some older commercial varieties. 3-5 dark green spears produced from each mature crown.

5240 - Mary Washington. A trusted, reliable variety producing vigorous, medium green, mouth-watering spears that are excellent fresh or quite suitable for freezing. Good resistance to asparagus rust.

BEANS

***BUSH/SNAP BEANS* ~50 seeds \$3.50**

3650 - Kentucky Wonder **Certified Organic** Green pole bean intro ~1864. Heavy producer, vigorous climber 65 days.

3601 - Thousand-to-one Certified Organic An excellent snap bean due to its long, pencil-shaped pods. The bean has a bush habit, growing to 15 inches high, throwing out a 2-foot-long runner.

3520 - Pencil Pod Wax Beans Pods snap easily and make excellent fresh eating, or use as canned bean. This black-seeded wax bean comes in early and produces for a long time. Dependable under high heat.

3530 - Royal Burgundy Delicious, stringless, purple pods. Prolific producer, even in cool conditions. 50 days.

3617 - Red Tail Snap Bush Bean - Certified Organic High yielding bush bean, plants are lush with 5-6" pods. Dark green, shiny beans are uniform and straight making for an efficient, reliable harvest.

3516 - Celine Snap Bush Bean - Certified Organic Vibrant, purple wax bean with yellow inside. Tasty and juicy!

3590 - Mix Beans - Certified Organic Mix beans. Pack of green, yellow and purple beans

3511 - Gold Rush - Certified Organic 55 days. Early determinate. Short, heavy harvest period. Pods hang in clusters around main stem, easy to pick! Golden-yellow pods with green tips are round, straight, tender. Excellent freezer.

3500 - Provider Green Bean - Certified Organic 50 days. High early yields, even under adverse conditions and a rich bean taste! Noted for its concentrated sets of rounds 12-14cm pods. Purple seed.

3612 - Bean Coco Bianco - Certified Organic Famous heirloom from Italy, these round fat beans are wonderful in soups, stews, and for baking. A premium cooking white bean.

3510 - Rocdor - Certified Organic A classic French variety with true yellow color, this tender, crisp bean has a delicious buttery flavor and is one of the earliest beans to mature. Mosaic virus and anthracnose disease resistant.

3512 - Thibodeau de Comte Beauce - Certified Organic 45 days. Heirloom bean originally from Beauce, Quebec. Straight green pods splashed with purple. Very tasty when picked young! Very productive, disease-free plants.

3503 - Blue Lake Beans - Certified Organic bush variety of the famous Blue Lake pole bean. Great home gardens!

3501 - Strike - Certified Organic Green bean. Extremely high-yielder with a concentrated pod set. Stringless, slender, and very smooth, with excellent shelf life. White seed. Days to maturity: 55 days

3540 - Dragon Tongue Bush Wax Bean 57 days. Compact stocky bushes bear abundant flat 15cm creamy yellow pods mottled with purple tiger stripes. Crisp, stringless and juicy when eaten fresh. Loses purple coloration in cooking

BEANS, BUSH/DRY ~50 seeds 3.50\$

3603 - Black turtle beans. Small black beans. Heavy produce. Soup and casseroles. 60- 85 days.

3596 - Costa Rica Golden Beans - Certified Organic A staple for soups, stews, and side dishes. Excellent smooth texture and nutty flavor

3541 - Jade Bush Beans - Certified Organic 55 Days. High yielding, long, straight, stringless pods that are tender, sweet with dark green colour

3701 - Maxibel. Attractive - Certified Organic compact plants with a bushy habit of only 45 cm (18") produce excellent yields of medium green, 12 cm (5") pods.

3606 - Orca - Certified Organic One of the all-time best for baking and soups. Strong 38 cm (15") plants, round black and white seeds with contrasting eye. Averages 4-5 seeds per pod, productive. Bush habit, 70-90 days.

3610 - Tendergreen flavorful green bean, stays tender on the plants a long time. Heat-tolerant snap bean with 15 cm (6-7 inch) round and meaty, dark-green pods.

BEANS, BUSH/FILET ~50 seeds \$3.50

3613 - Mascotte Beans - Certified Organic Even in a window box, this filet bean produces high yields of 13-15cm long pods that have excellent flavor and a crunchy texture.

3703 - Velour - Certified Organic Dwarf French Extra fine purple long pods 13-15 cm. A true gourmet variety. Stringless! Great taste and texture. Compact bush habit. Produces over a long period of time. Excellent fresh or for freezing.

BEANS, LIMA \$3.50/pack

3558 - Early Thorogreen Lima beans Productive bean for northern growing! Early bean seeds produce dwarf plants 50cm tall. Big clusters of 9-10cm pods develop near top of the plant.. Matures in 67 days. ~50 seeds

BEANS - POLE, SNAP ~30 seeds \$3.50

3688 - Hogan's Green Pole Beans - Certified Organic Stringless green bean, pick when small. Exceptional for fresh eating or freezing/canning, the vigorous vines produce abundant yields of straight 6-7 in. beans. (55-65 days)

3651 - Cherokee Trail of Tears Beans - Certified Organic Prolific, good as snap or dry bean. Has shiny, black beans. Hardy, vining plants

3687 - Pole Beans Mix - Certified Organic Mix of green, purple, striped and yellow pole beans

3670 - Peacock Pole Bean - Tender flat purple pole beans grow on very tall vines following purple and lilac flowers. Produces a bounty of beans that turn green when cooked

3652 - Rattlesnake Pole bean - Certified Organic AKA Preacher Bean in parts of the South. Produces a good harvest of round 6-7" pods with purple streaking resembling a rattlesnake. Excellent for freezing.

3662 - Neckargold - Certified Organic Long, oval, stringless yellow pole beans. 60 days.

3656 - Blue Lake - Certified Organic 55-65 days. 2m tall This stringless green bean has a dedicated following. Exceptional for fresh eating as well as freezing or canning, the vigorous vines produce abundant yields of straight 15-17 cm beans.

3674 - Carminat Pole Beautiful, slender purple pods much nicer than older, purple pole bean varieties. Harvest pods at 8-9". Excellent, rich, and slightly sweet flavor.

3664 - Monte Gusto Pole Bright yellow, smooth pods this elegant, flavorful wax bean is a clear improvement over older, less attractive pole wax bean varieties.

3675 - Seychelles Beans 55 days Stringless glossy dark green 6" pods, with a continuous set of 6 uniform pods per node. Train climbing plants to a trellis for best results.

BEANS, EDAMAME ~50 seeds \$3.50

3560 - Soya Chiba - Certified Organic Upright 24" plants produce an abundance of all-green beans, excellent quality. Great short-season variety. 75-85 days.

BEETS \$3.50/pack

5152 - Golden Beet - Certified Organic Solid green tops are long and attractive, and quickly shade out weeds. Vibrant golden yellow flesh retains its color when cooked and is sweet and milder than red beets. Best germination occurs in warm temperatures. 55 days. ~100 seeds

5180 - Chioggia. Its rosy-pink skin hides white flesh with bright pink rings. Tops are medium height with green stems and red shading. Makes impressive garnish when grated. 60 days. ~100 seeds

5160 - Detroit dark red - Certified Organic 55 days. A favorite since 1892, this smooth, nearly globe-shaped, deeply red beet is colorful raw in salads and sweet-flavored steamed or baked. An outstanding keeper. Grows well in spring and fall. ~200 seeds

5170 - Early Wonder - Certified Organic 45 days. Adapted to all seasons, but especially good in early spring with quick growth in chilly soils. Tall, tasty green leaves with red stems are wonderful eating. Slightly flattened roots. ~200 seeds

5150 - Cylindra Beets - Certified Organic A sweet, smooth-skinned, tender and juicy. Beet seed can be directly sown into the soil as soon as soil can be worked. ~200 seeds

BROCCOLI \$3.50/pack

5380 - Purple Peacock Broccoli - Certified Organic Young leaves are salad-rate, and mature leaves are as sweet as any lightly steamed kale. Floret stems erupt first as loose heads of broccoli, followed by prodigious side shoots. These are sweet and non-biting as raw "dippers" and salad additions. ~100 seeds

5381 - Natalino Romanesco Broccoli Natalino makes a wonderful addition to a vegetable dip tray with its curious look and fantastic flavor. Start indoors and transplant out under lightweight row cover. ~100 seeds

5351 - Broccoli, Piracicaba - Certified Organic 55 days. Heat-tolerant, small heading broccoli similar to broccolini. Endless tasty side shoot production. The leaves are as delicious as the tender green heads and sweet stems. ~50 seeds

5350 - de Cicco - Certified Organic Compact 60-80cm plant produces 10cm central head. After the central head is cut, many side shoots follow. Very early, great for freezing. 48 days from transplant. ~100 seeds

5360 - Waltham 29. 80-85days Developed in 1951 and long considered the standard open-pollinated fall broccoli. These stocky 50cm plants produces 15cm heads with medium beads. ~100 seeds

BRUSSEL SPROUTS \$3.50/pack

5430 - Long Island Improved Brussel sprouts Hardy Biennial Vigorous, compact plant loaded with round, tight, dark-green sprouts, succulent and tender. Best for late fall and winter harvests, as frosts will improve the flavor ~100 seeds

5431 - Red Ball Brussel sprouts produce plants with red foliage and sprouts, and the color really improves in cold weather and after frost. Yields on this 1m (39") tall variety are a bit lower, but the dark red sprouts are sweeter ~50 seeds

CABBAGE ~100 seeds \$3.50

5461 - Copenhagen market. 63-100 days from transplant. Solid heads reach 15-20 cm in diameter, weigh 1-2 kg and rarely burst. Medium-sized plants are ideal for smaller gardens.

5462 - Early Jersey Wakefield. Conical, solid, tightly folded heads are 25-40cm tall by 12- 18cm in diameter and weigh up to 2 kilos. Be careful not to plant too close together. 60-75 days from transplant.

5470 - Red Express Cabbage - Certified Organic Heads up quickly into a neat and tidy little cabbage, perfect for those who want a smaller portion. Uniform with very nice color, and much, much earlier than standard cabbage varieties.

5450 - Golden acre cabbage - Certified Organic Early round head easily grown with versatile use. 6-7 in heads on compact plants ~1 ft high. Firm, medium green head great cooked or raw! ~65 days maturity from transplant.

5454 - Mammoth Rock Cabbage - Open-pollinated. Mammoth Red Rock is a large red Danish cabbage dating back to the 1880s. It has big, colorful, round heads that average around 5-8lbs each. Very sweet & stores well

5465 - Premium Flat Dutch Cabbage 110 days. A late-maturing cabbage with very large solid heads, 25 cm (10") across and weighing up to 4 Kg (8.5 lbs.). Exceptional winter storage qualities.

5481 - Savoy Cabbage Chieftain Heirloom crinkled green leaves. Withstands fall frost well. Sow 6 mm deep, 5 weeks before last frost date, keep at 20°C. Transplant outside in May. Space every 15" in 25" rows.

3290 - Wong Bok. 75 days. Old Chinese heirloom produces an upright broad head, ~9" high-6 in diameter. ~150 seeds

CARROTS \$3.50/pack

5002 - Paris Market Carrots Rounded, bite-sized carrots with a smooth, bright orange skin. ~300 seeds

5010 - Danvers 126 Carrots - Certified Organic Dark bright-orange flesh, nearly coreless. Leading main crop variety for home and market, stores well into the winter. Sweet and tender ~ 3-400 seeds

5020 - Chantenay - Certified Organic 70 days. Big, dark-orange, 12 - 15cm long, 5cm at the top and tapering to a point. Amazingly sweet for a big carrot. Good for freezing and canning too. ~3-400 seeds

5001 - Scarlet Nantes - Certified Organic 65-75 days mature. Very sweet, crisp carrot with excellent keeping qualities. Cylindrical and tapering slightly to a blunt tip. The standard for quality among open pollinated varieties ~3-400 seeds

5030 - Emperor Carrots - Certified Organic According to the 1936 Henry A. Dreer catalog; "This carrot represents a most desirable combination of choice eating qualities and splendid appearance ~ 3-400 seeds

5060 - Dragon carrot The deep, rich, purplish-red color of Dragon is eye-catching at the market, especially when sliced to reveal a contrasting orange interior and often yellow core. ~300 seeds

5009 - Carrot mix - Certified Organic A colorful array of yellow, purple, white and red carrots. The flavor varies a bit with root color, but all are tender, sweet and flavorful. 7-9" tapered roots with strong tops. ~300 seeds

CAULIFLOWER ~100 seeds \$3.50

5491 - Cauliflower Song Exceptionally sweet, early cauliflower.

5490 - Cauliflower Early Snowball Well adapted for forcing or wintering-over for early crops in warmer regions. Smooth 6-7" heads of tightly formed white curds are solid, crisp and tender, excellent quality. 70 days from transplant.

CELERY ~100 seeds \$3.50

3311 - Celery, Red Stalked - Certified Organic The best large stalked celery we have seen. Stalks are large like standard green celery. This variety is tender and mild. 80 days

3310 - Celery Utah. Tall medium green celery with long, thick stalks that are sweet and smooth. 80 days.

3312 - Chinese Pink celery - Certified Organic A stunning bright pink celery from China, where the attractive pink stalks are served in high-end restaurants. This tasty Asian type celery is a great choice for beginner gardeners

6380 - Golden Kin Tsai Celery - Certified Organic A golden cutting celery in true Asian tradition—fast growing (for celery), tender slim hollow stems with refined aroma, good for salad or soup garnish. Direct seed or transplant at 8-12" apart.

COLLARD ~100 seeds \$3.50

5511 - Collard Champion - Certified Organic Cold-hardy member of cabbage family grown for cooked greens. Compact, handsome plants with dark-green leaves on short stems. Gathered all winter, steamed, boiled or stir-fried well into spring.

5512 - Portuguese Tronchuda Kale/Collard Beira An ancient strain of Portuguese or Tronchuda Kale grown for the fleshy petioles and broad midribs of the leaves eaten like celery.

CORN ~100 seeds \$3.50

3440 - Fisher's Earliest Sweet Corn - Certified Organic 70 days. One of the best tasting, open-Pollinated varieties! Usually produces 1 ear, that averages 6 inches length, rows of beautiful yellow kernels on colorful, 5-6 ft. tall stalks.

3420 - Baby corn Chires - Certified Organic 120-150cm -75-85 days- Mini corn, used in Chinese cuisine. Multiple ears per multi-stalked plant. Harvest 5 days after silks appear for fresh stir-fry, or dry for popcorn.

3450 - Popcorn: Dakota Black - Certified Organic Tender Unusual, dark red to nearly black, pointed kernels producing two ears on a 1.5-2m plant, with an occasional white kernelled ear. 95 days.

3451 - Ornamental Corn 100-110 Days A kaleidoscope of soft and muted earth tones that mature just in time for autumn décor. Boasting vibrant and exotic shades of gold, pink, blue, orange, and purple

3445 - Peaches and Cream 70-80 days. Produces 22cm (8.5") long bi-color cobs, each with white and gold kernels. Six feet tall plants and very sweet cobs. Highly recommended for the home gardener.

3410 - Who gets kissed corn - Certified Organic 78-84 days A sweet corn with excellent flavor and tender texture; good cool soil emergence. Compact 5-6' tall plants with ears 2' off the ground; 14-16 rows of kernels each.

CORN ~100 seeds \$4.50

3444 - Sugar Buns Sweet Corn 70-80 days, an early sugary variety. Remains tender for a good 2 weeks on plant. makes for a long harvest window. This corn is delightfully tender with a rich, creamy sweetness. Sugar Buns freezes well.

CUCUMBER ~20 seeds \$3.50

4581 - Muncher Cucumber 60 days. Without insects, the vines produce seedless fruits that remain tender and tasty for longer. This tender, dual-purpose variety makes great pickles and is excellent for fresh eating right out of the garden!

4582 - Tendergreen burpless Cucumber - Fruits are medium-dark green and best when harvested at 8 inches or less. Great slicer as they uniformly grow into plump, smooth, and burpless cucumbers. Good pickler as well.

4450 - Suyo Long Ribbed dark green skinned cucumber from northern China. Non-bitter, burpless, crisp and tender fruits grow 25-45 long and 4cm in diameter. 60-70 days.

4550 - Tante Alice - Certified Organic 65-75 days. Long fruits, tender and delicious, easy to digest.

4500 - Lemon cucumber - Certified Organic Lemon shaped when ripe, a delicious, very sweet cucumber with thin, tender, light yellow skin and white flesh. A good slicer and pickler, it is also easy to digest. Rust resistant and fairly drought tolerant. 58-65 days.

4630 - Miniature White - Certified Organic 50-55 days – The short 1m vines produce a heavy crop of white, sweet and crunchy, mini cucumber. So tender, there's no peeling necessary. For maximum flavor, pick when smaller than 7cm.

4570 - Improved long Green cucumber - Certified Organic Dark green fruit, about 25 cm long with finely textured flesh and a good leaf cover. Excellent for slicing and pickling. 68 days.

4470 - Early Russian - Certified Organic Classic heirloom pickling cucumber. Great fresh eating too! Small, mild taste, non-bitter, productive and bearing throughout the season, early--although bearing a bit later than some hybrids. 60 days

4620 - White wonder - Certified Organic Fruits are 17-6cm diameter. Ivory-white at slicing stage and ivory-yellow when past maturity. Excellent eating quality, ideal for pickles or slicing, highly productive even in hot weather. 58 days.

4520 - Pointsett 76 - Certified Organic 65 days Open pollinated slicing. Dark green 17-20cm, smooth, cylindrical and well-rounded ends. Heavy yields. T/R: one + races of anthracnose, downy & powdery mildew, scab and angular leaf spot.

4510 - Marketmore cucumber - Certified Organic Large, dark- green and non-bitter fruits from prolific vines. Produces well and consistently in hot or cool weather until frost. 65 days.

4440 - Spacemaster - Certified Organic A very compact, bushy variety is ideal for small growing areas. Excellent for pickling when small, use for slicing as they grow larger. Approx. 62 days to maturity.

4560 - Boothby's Blonde - Certified Organic High yields of 15-20cm, cream colored cucumbers, mild, sweet, thin skinned. Good producer. 55-60 days.

4472 - Wisconsin SMR-58 Pickling cucumber Great cucumber variety for pickling.

4480 - Chicago Pickling Cucumber Go-to pickling cucumber for canners. Thin skins accept pickling solutions well.

4610 - Crystal Apple - Certified Organic A prolific and sweet flavored cucumber that is shaped like an apple when mature. Very tender creamy white skin. Good for market or home gardeners. 65 days.

4540 - DMR 401 Cucumber - Certified Organic Hands-down winner for mildew resistance. Best used in regions with heavy DM pressure, and during seasonal slots when DM is expected.

4460 - Mexican Sour Gherkin/ Cucamelon - Certified Organic Pepquino melon. 50 days. Melothria Scabra. Plant produces heavy yields of 5cm/2" long small cucumbers that look like miniature watermelons.

4640 - H-19 Little leaf - Certified Organic Compact plants with loads of small cucumbers, excellent for salads and pickling. Good for containers. 58 days.

4580 - Mid-east Prolific - Certified Organic 12-17 cm long Lebanese cucumber. Thin-skinned and never bitter. Our best flavored salad cucumber. Vines bear extremely early. 55 days.

4430 - National pickling - Certified Organic Short, thick and blunt when young, become smooth, cylindrical when mature. Plants produce heavy yields of medium green fruit, ideal for sweet or dill pickles. Pick ~55 days after sowing.

4530 - Straight eight 57 days. Highly dependable, high yielding cucumber. Very uniform deep green 8" fruits about 2-1/2" in diameter with an exceptional flavor.

EGGPLANTS ~25 seeds \$3.50

5920 - Little Finger - Certified Organic Slender, petite eggplants with dark purple skin, excellent for grilling! Harvest when fruit is young and glossy. A great variety for large containers! Early. Productive Great for containers. 3-6" fruit

5993 - Ping Tung Long. This slender violet- purple eggplant becomes at least 30cm long and has an excellent mild flavor and tender white flesh. Great for slicing and using in Oriental or other cuisine. 65 days.

5923 - Open Ophelia - Certified Organic A small fruited, mini eggplant. Its 2 oz. fruit are produced on medium tall, bushy plants and have an oval shape.

5980 - Apple Green. Beautiful pale green round to oval fruits appear very early, and have an extremely mild flavor and white flesh. Because it is so early, Apple Green bears dependably even for gardeners in the North. 60 days.

5900 - Black beauty - Certified Organic Oblong fruits are sweet and delicious. Productive, 8-10 fruits/plant. Good northern variety. 80 days.

5922 - Eggplant Sons & Daughters - Certified Organic One of two ongoing short season eggplant projects from Telsing. This is based on a long type with a black calyx. Nice creamy flavor. Some variation in the fruit to be expected and embraced.

5970 - Petch Siam - Certified Organic It is a popular variety of Thai eggplants. 55 days after transplanting. Round green fruits with dark green strips, average 5 cm in diameter and 40~60 gram.

FENNEL ~100 seeds \$3.50

5520 - Perfection - Certified Organic Unlike sweet fennel, this produces a bulbous base of delicate anise flavor and crisp texture. Does best in cool weather: sow direct in July to mature by fall or start early indoors and plant out in spring. 80 days.

GREENS \$3.50/pack

3230 - Amaranth/Kallaloo red - Certified Organic Burgundy colored leaves. Eat young leaves in salads or slightly steamed. Highly ornamental ~150 seeds

3240 - Amaranth/Kallaloo Tenderleaf - Certified Organic Dwarf variety, 3-8" high, developed in Taiwan. Tender stems and leaves delicious for stir-fry, soup and salad. Grow very well and fast in warm climates, suitable for spring-early fall crops. ~150 seeds

3205 - Greens Turkish Rocket - Certified Organic A very hardy perennial in the brassica family with a lot going for it. The young florets and stalks make a delicious vegetable when cooked like asparagus, with tastes of broccoli rabe and cabbage. ~25 seeds

3231 - Amaranth Burgundy - Certified Organic Good tasting young plants with red leaves and cotyledons. Very popular for micro-greens and baby cut salad, especially during the heat of summer when it thrives. ~150 seeds

3220 - Mesclun, mixed greens - Certified Organic Mixture of lettuce, mustards and other greens. Used in salads. ~400 seeds

3361 - Prize choy - Certified Organic Beautiful upright pac choy with succulent white stems and lush green leaves. This strain is especially uniform, vigorous, and bolt resistant. Delicious mild flavor. Excellent in stir-fries. 45-50 days. ~150 seeds

3364 - White Stemmed Pac Choy - Certified Organic Brassica rapa var chinensis. Gorgeous thick, white stems under glossy green leaves. More open habit than Prize Choy and more commonly used as a baby leaf variety in salad and braising green mixes. ~150 seeds

3280 - Tah Tsai. 21 days baby, 45 days full size. Delicate, mild flavor is delicious raw or in a stir-fry. This attractive and prolific miniature vegetable forms flattened, dense rosettes of dark-green leaves that can be harvested even after snowfall. ~150 seeds

5600 - Molokhia - Certified Organic Middle Eastern super-green, aka Egyptian spinach, high vitamin and mineral content. Dates back to the time of pharaohs when a king drank it in soup to recover from illness. Widely eaten in Egypt. ~100 seeds

3221 - Spicy Mesclun - Certified Organic Spice up your greens with a spicy mustard flavor and a variety of colors and shapes. Over a dozen single varieties including Red Giant, Purple Osaka, Green Wave, Arugula, and more. ~400 seeds

5530 - Wrinkled Crinkled Crumpled - Certified Organic Cross between 'Persian' and 'Curly' cress, the leaves of this unique type are erect for easy cutting and cleaner product. Widely reported to be the last variety to bolt in comparative trials, meaning more cuts per sowing. ~150 seeds

3204 - Arugula, Wild - Certified Organic This wild relative of the cultivated arugula is intensely lobed and has a wild fire pungency. Is more heat tolerant and much more cold tolerant than standard arugula. ~400 seeds

5560 - Purslane, Yellow - Certified Organic Golden yellow leaves are 4cm rounded, thick, and succulent. Used for a juicy lemon flavor in summer salads. Mounded compact growth to 35cm tall. ~100 seeds

3200 - Arugula Astro - Certified Organic Spicy salad plant has been grown for over a century. High in protein and uniquely flavored. Deeply cut arrow-shaped leaves and white flowers are all edible. Can be planted early as it prefers cool weather. ~400 seeds

5334 - Saisai Purple Daikon - 30-40 days for baby greens, 120 days full size. Hybrid. This radish is intended to be grown as baby salad greens. The mid-rib is vibrant purple, contrasting nicely with bright green rounded leaves.

3380 - Corn Salad - Certified Organic Dark green leaves form a fancy rosette that is harvested when young. Leaves can be blanched for a few days before picking to remove bitterness and have a vaguely nutty taste that is improved by a light frost. ~150 seeds

5550 - Purslane green - Certified Organic Purslane leaves have more vitamin C than spinach and are rich in omega-3 fatty acids and natural antioxidants. Hot weather plant. ~100 seeds

KALE ~150 seeds \$3.50

3158 - Scarlet Kale - Certified Organic Remarkably attractive dark green kale with red veined, frilly, tightly curled leaves. We have found Scarlet to be a vigorous performer with good cold tolerance. Begin harvesting leaves when young, and allow plant to grow well into the early winter.

3153 - Lacinato, blue - Certified Organic Heirloom. 60-90cm. The leaves of this extremely winter-hardy variety become sweeter after a hard frost. Delicious and tender when stir-fried or steamed. 50-60 days.

3161 - Dazzling Blue - Certified Organic 50-60 days. Sports puckered, brilliant blue-green leaves highlighted with pink midribs. Along with its showy appearance, Dazzling Blue proves to be especially cold-tolerant, surviving sub-freezing temperatures better than other lacinato types.

3164 - Dwarf Green Curled Kale - Certified Organic A frost tolerant variety from northern Germany that can be harvested long into winter. Plants have a slightly smaller frame and attractive, medium green leaves. Compact variety with frilly, tightly curled leaves and excellent flavor.

3159 - White Russian Kale - Certified Organic Sweet, tender, hardy leaves. Blue-green leaves and white ribs that get sweeter in cold weather. Tolerates wet soil. Very cold-hardy. Days to maturity: 21 days baby, 50 full size

3154 - Vates - Certified Organic 55 days. Use as a garnish or steam the greens, especially after a frost when the greens become sweeter. Plants are sturdy and compact with deep-green, finely curled leaves.

3150 - Kale mix - Certified Organic Mixture of shapes and colors.

3151 - Red Russian - Certified Organic 40 days. 'Red Russian' is an unusual and beautiful variety that grows 60cm tall. Leaves are bitter-free, very tender, and are intersected by purple-pink veins, lightly tinged with purple on the margins. In cold weather the leaves turn reddish-purple and are very attractive.

3156 - Kale - Certified Organic Jagallo nero A distinctive oak leaf form of Cavolo Nero or Lacinato kale. Attractive blue green leaves are deeply indented, with long petioles, adding a very different texture to a mixed salad.

KOHLRABI ~100 seeds \$3.50

5411 - Kohlrabi Vienna Standard home garden and market variety. The skin of the bulbs is green and the flesh is greenish-white.

5412 - Kohlrabi: Purple Vienna Standard home garden and market variety. The skin of the bulbs has a purplish hue and the flesh is greenish-white.

LEEKS ~100 seeds \$3.50

5441 - Blue Solaise Leek - Certified Organic Wide, deep blue-blue-green leaves with 4-6" stems 2-3" or more in diameter. Cold weather is when these leeks excel, and it brings out an intense violet hue in many of the plants. Makes a great soup with parsley and potatoes.

5440 - Winter Leeks - Certified Organic Leaves are a medium green with a nicely elongated stem 20- 22.5cm long and 5-7.5cm thick. The mild tasting, white stems are absolutely delicious in sautés, soups and other dishes.

LENTILS ~100 seeds \$3.50

5861 - Green Lentils - Certified Organic Easy to grow, ~60 days to dry lentils. Direct seed outside, spacing plants 2-3", rows 6-8" apart. Seeding Date Mid-April to early May. Average soil temperature at depth of seeding at 5°C.

5860 - Dupuy Lentils - Certified Organic French. Easy to grow, about 60 days to dry lentils. Direct seed outside, spacing plants 2-3", rows 6-8" apart Target 12 plants/ft2 (130 plants/m2).

LETTUCE/LEAF ~300 seeds \$3.50

3050 - Tango - Standard baby leaf variety for salad mixes that defines this type. Deeply lobed and frilly, similar to endive with a light pale-green color, oak leaf shape and lofty texture. Makes a small, compact head. 28 days to maturity

3110 - Black seeded Simpson, Introduced in 1850, this favorite looseleaf lettuce has sweet, large, light- green, crumpled leaves. Inner leaves blanch almost white. Slow- bolting, never bitter, early and adaptable.42 days.

3056 - Deer Tongue, Red. 45 days. Leaves are long, pointed, and dark red with a contrasting white midrib.. Begins as a unique dark red cutting type, then makes a butter-cos heart. Best as a spring lettuce.

3067 - Red Sails Lettuce An all-Americans selections winner in 1985, and still a favorite of home gardeners for its vigor, adaptability and excellent flavor. Crispy and sweet, never bitter, and extremely slow to bolt.

3061 - Bronze Arrowhead. 40-50 days. Awarded the bronze medal at the 1947 All-America Selections. Hailed as "the finest, most colourful and most delicious leaf lettuce for the home garden.

3130 - Salad Bowl Lettuce - Certified Organic 28 days baby, 50 days full. Rapid growth, disease resistance, slow bolting, and refusal to turn bitter in hot weather. Forms a big rosette of light-green, wavy, deep-notched leaves.

3055 - Dark Lollo Rossa Lettuce - Certified Organic Heavily frilled green leaves with dark red edges. Lleaves provide loft, texture, and color. Good red color even in low-light indoor conditions or under row covers.

3073 - Cardinale Lettuce - Certified Organic A wine red Batavian crisp-leaf, especially suited to cutting for salad mix because of its juicy crunch, heft, shelf life and well-proportioned leaves.

3066 - Deer Tongue - Certified Organic green. Amish variety valued for its ruggedness and heavy production. Thick compact plant great for a cut-and-come-again lettuce.

LETTUCE/BUTTERHEAD ~300 seeds \$3.50

3065 - Merveille des Quatres Saisons French heirloom lettuce ~1885. Produces 8-12 heads. Yellow, green tipped leaves. Excellent flavor, does well in all types of climates. Can be sown Spring or Fall. Matures 45-55 days.

3140 - Buttercrunch - Certified Organic Crisp, easy-to-grow butterhead with wonderful flavor and texture. Dependable, with solidly-furled leaves. Heat tolerant, slow to bolt.

3081 - Red Earred Butter Heart - Certified Organic 55-60 days to maturity. Buttery leaves with deep red tips and bright green centers. Delicious flavor, light texture.

3068 - Tom Thumb 55 days. Small butterhead perfect for small gardens. About the size of an apple, it is ideal for serving whole as an individual salad. Does best planted in early spring or late summer

3083 - Kweik Lettuce - Certified Organic A "kweik"-heading, medium, lime-green butter type, suited to cool season crops. Strong tendency to bolt in long days of summer. Has shown field resistance to downy mildew, tip burn, and

LETTUCE/ROMAINE ~300 seeds \$3.50

3121 - Cos or Romaine Long, conical heads, up to 25 cm (10") tall with crunchy, juicy leaves. Use them as loose-leaf lettuce, or bind to get whiter heads that are more solid and crisp.

3120 - Parris Island Cos. Romaine - Certified Organic 28 days to baby, 55 days to full size. Light-green, upright leaves form a tall, cylindrical head. Very good flavour, crisp and sweet-tasting.

3077 - Jericho - Certified Organic Heat tolerant for summer harvests. Bright green leaves, unique silky texture and sweet flavor. Good selection for indoor or outdoor cultivation. 28 days baby, 57 full size

3070 - Rouge d'Hiver Lettuce - Certified Organic 28 days baby, 60 to full size. Excellent red romaine of old French heritage. Large, broad leaves with sweet flavor, buttery texture. Tolerant of tip-burn, white mold, and cold.

3082 - Really Red Deer Tongue Lettuce - Certified Organic Long leaves, pointed, and completely dark, with a pale midrib. Begins as a unique dark red cutting type, then makes a butter-cos heart. Probably best as a spring lettuce.

3090 - Red Salad Bowl Lettuce A popular ingredient in salad mixes but also suitable for heads. Versatile for all-season use, with best color in cooler weather. Displayed field tolerance to fall mildews in our trials. Best for fall crops

3064 - Freckles - Certified Organic Semi-cos style variety, slow to bolt and highly productive, with the most unusual leaf. This intricately speckled foliage has a nutty taste, ideal for salad both for flavor and color!

3075 - Winter Density Lettuce - Certified Organic Butterhead/romaine texture with good flavor throughout season.

3062 - Dark green Romaine - Certified Organic A classic heirloom within its type Head closed at the top, blanching the heart. The darker green leaves seem to go with its especially sweet flavor.

3059 - Antares - Certified Organic Bright red, extra frilled, fine cut oakleaf, vigorous growth.

3053 - Red Iceberg lettuce - Certified Organic 65 days Fully heading crisphead iceberg lettuce. Crisp and sweet.

3071 - Crispino - Certified Organic Straight head lettuce, no questions asked. Quarter it as salad for four, add dressing. Ozzie & Harriet salad of my youth is making a comeback, and this is the backbone for it.

3057 - Iceberg - Certified Organic 65 days. Not to be confused with the generic term for head lettuce, this Batavian variety is an heirloom more than a century old. Golden green leaves with wavy pink margins form large soft oval heads.

MUSTARDS ~150 seeds \$3.50

5598 - Wasabi Mustard Greens - Certified Organic 45 days. Can be grown as microgreens (10 days), or in garden row as fast-growing mustard salad green. Sharp, peppery flavor reminiscent of actual wasabi, without its infamous nasal burn.

5591 - Osaka Purple - Certified Organic 40 days Large, beautiful, savoyed, purple leaves, pungent and sharp. Use young in salads or bunch for steaming. Stir-fry when mature. Cool-weather crop, bolt-resistant in the heat.

5582 - Yukina Savoyed - Certified Organic Deep green rounded leaves with a deeply savoyed texture, like a "spinach-savoyed tatsoi."

5596 - Bausin Mustard Green Uncommon variety, mild and sweet! Glossy golden-green leaves with a trace of red veining great for salads, maturing to a beautiful folded heart prior to bolting. Stems of bolting plants are sweet and crispy.

5580 - Mizuna - Certified Organic 21 days baby, 40 days mature. Deep fringed lime-green leaves with nice mild flavor

5593 - Golden frill - Certified Organic Lacy-looking leaves are vibrant light green, finely cut and frilly. Deeply cut and serrated leaves add loft and texture to signature salad mixes.

5594 - Ruby Streaks Mustard Green - Certified Organic Deeply-lobed and lacy burgundy baby leaves are airy and lofty with a bright green stem, and more closely resemble dandelion greens when mature.

3190 - Mustard red giant - Certified Organic Large, beautiful, round, purple leaves with pungent, spicy flavor. A cool-weather crop.

OKRA ~25 seeds \$3.50

4871 - Burmese Okra - Certified Organic 53 days. 9-12 in. slender pods curved and virtually spineless. Pods mature from light green to yellow-green. At 10 in. long they are tender, sweet, and spineless enough to be eaten raw.

4874 - Emerald - Certified Organic 60 days. Spineless, velvet type with tall plants, round, smooth, dark green 7-to-9-inch green pods. High quality and yields well (even in the North).

4728 - Bennings Green Tint - Certified Organic Colorful light green scalloped shaped fruit, tender, excellent yields, easy to grow 50 days.

4724 - Gem Squash: small, dark green summer squash or winter squash with hard orange shell. South Africa. 70 days

4655 - Trombetta di Albenga - Certified Organic Italian heirloom, vigorous climbing vine, producing many 30-38cm, lime-green fruits with curvaceous trumpet shape. Has mild taste with hint of nutty artichoke. Seedless and firm flesh, doesn't get watery or mushy like regular zucchini.

4716 - Vegetable marrow - Certified Organic 100 days. Large bushes produce pale oval squash, can be used as a zucchini or left to mature. When mature at 25cm, it has hard skin and creamy interior that is popular for stuffing and baking. Lebanese type.

4652 - Longue de Nice - Certified Organic (C. moschata) A variety from the South of France. Valued for both its immature fruits, 'courgettes' and as a mature winter squash. When mature its flesh is an outrageous salmon color. Insect and disease resistant.

4712 - Woods Early: prolific, white scalloped fruits. Heirloom. 50 days.

4729 - Cocozelle zucchini - Certified Organic 45 days. Bush type plant with good yields, dark green with light green stripes. Italian zucchini is flavorful, tender. Best when harvested at 30cm or smaller. Great for slicing, frying, and steaming.

4713 - Golden Zucchini. Introduced in 1973 by W. Atlee Burpee of Philadelphia. Crisp and mild-flavored zucchinis are borne prolifically on bush plants. 50-55 days.

4722 - Black Beauty Zucchini. Cucurbita pepo. Excels in producing good quantities of straight, marketable fruits. A reliable, open pollinated variety that, under favorable conditions, high yields. Days to maturity: 50 days

WINTER SQUASH ~20 seeds \$3.50

4684 - Baby blue Hubbard- A more marketable, scaled-down blue hubbard with smooth, gray-blue skin and sweeter flesh than the standard Blue Hubbard. Fruits of 2-4 kg are of consistent quality and teardrop shape.

4671 - Uchiki Kuri - Certified Organic This Japanese variety has an almost smooth orange-red rind and thick creamy yellow flesh that has a very sweet and nutty flavor. Weighs about 1.5kg when mature. 85-95 days

4726 - Thelma Sanders Wonderful cream- colored acorn-type squash. A favorite two- serving baking squash. Excellent flavor, enormously productive. A great family heirloom. 85-90 days.

4702 - Acorn Sweet REBA - Certified Organic Develops fruit long after most squash varieties have succumbed to powdery mildew. Plants have compact bush habit and produce very high net yields of marketable fruit. Fruits average 4-5 per plant and are 7-900g, uniform, and rounded.

4681 - Galeux d'Eysines - Certified Organic Sweet, moist, orange flesh, great for baking and also used in soups. Fruits weigh 10-20 pounds and should be harvested before overly mature, because the peanut-like warts continue to grow and will cover the entire fruit. 90 days

4653 - Butternut squash: Waltham - Certified Organic Heirloom Bell-shaped fruits have dark orange, medium- dry, sweet flesh. Delicious in soups, baked or steamed. Stores well into late winter. Productive Waltham strain yields 3-5-pound fruits. 95-105 days.

4660 - Cushaw White - Certified Organic (Jonathan Pumpkin) curcubita mixta 100 days. A rare Cushaw type; white skin and sweet, pale orange flesh. Easy to grow, huge yields, and good resistance to squash bugs. A popular heirloom from the South.

4677 - Potimarron - Certified Organic The name is derived from potiron (pumpkin) and marron (chestnut). Very aromatic and chestnut-like in taste. One of the very best for baking and roasting. Nice- sized 1-2 kg fruits store well. 85-95 days.

4657 - Black Futzu - Certified Organic Black Japanese squash; the fruit is flattened, round and has heavy ribbing. Unique and beautiful. The black fruit will turn a rich chestnut color in storage. Flesh is golden color and has the rich taste of hazelnuts. Fruits are 1-4 kg; vines give huge yields.

4670 - Burgess Buttercup - Certified Organic round flat squash with orange meat. The finest of the sweet maximas. Creamy textured, deep orange flesh is high in beta-carotene. Great for baking or steaming. The 1-3 kg fruits will keep for months. 95-105 days.

4650 - Burpee's Butterbush - Certified Organic Butternut Winter Squash (87 days) Smooth tan 2-3 lb fruits with small seed cavities and deep reddish-orange sweet flesh. Its earliness is a boon in cold summers. Average yield is 3-5 ripe fruits per plant. Excellent keeper.

4704 - Candystick Delicata - Certified Organic 90 days. A large Honey Extremely thick flesh & delicious rich flavor. Fruits are tan skinned with green stripes. Produces short loaf & long boat shapes. Keep very well & retain their sweetness better than other squash well into storage.

4703 - Sweet Dumpling - Certified Organic Globe shaped small winter squash, striped skin, golden flesh. Maybe the sweetest squash ever, the prolific compact vine yields up to 10 fruits which are teacup-shaped, ivory colored with green stripes. Needs no curing to store for 3-4 months.

4701 - Delicata - Certified Organic 95 days. Superbly sweet, tender flesh. The only winter squash that can be eaten with skin on, after baking or boiling. Uniform size, shape and color as well as yield of sweet, soft-shelled fruit.

4678 - Squash, Guatemalan Blue Banana. (Cucurbita maxima) Belongs to the Banana group of squashes, noted for their fine table quality. This selection is dark "blue" with light stripes; golden-yellow flesh is thick and firm.

SWISS CHARD ~100 seeds \$3.50

3251 - Perpetual Chard, also known as perpetual spinach. Ideal for salads or boiling. Thin stems and relatively smooth green foliage that will not bolt in hot weather. Grown for its fine tasting, smooth textured, green leaves which, when young, are used like spinach.

3250 - Fordhook Giant - Certified Organic Broad dark-green heavily crumpled leaves with white veins and stalks. Plants grow 60-70cm high with 5cm wide stalks. Abundant crops all season and even after the first light frosts. 50-60 days.

3252 - Blonde de Lyon - Certified Organic An exceedingly rare old heirloom leaf beet from Lyon, France, with paler green leaves than most Swiss chard varieties. The fleshy white stems are used in France as an asparagus substitute.

3255 - Sunset Chard - Certified Organic Glossy green leaves with bright yellow stems,

3254 - Orange Chard. Green leaves with bright orange stems

3270 - Golden Chard. A nice heirloom strain from Abundant Life Seed Foundation. Emerald green baby leaves with yellow stems are especially mild and sweet cut salad. Stem color intensifies with age.

3275 - Rainbow mix. Mixed colored chard from yellow, pink, red and green. Spectacular range of colors throughout the entire season. 50-60 days.

3260 - Rhubarb Chard. Deep crimson stalks and leaf veins contrast sharply with dark green heavily crumpled leaves. Sure to be a standout variety for home gardeners and market growers alike. Introduced in 1857. 50-60 days.

TURNIPS \$3.50/pack

5071 - Golden Globe Turnip. Delicious, sweet, light-yellow roots are very mild. They are fine-grained and tender. This heirloom was introduced before 1888. It's hardy and a good keeper. 45-65 days. ~150 seeds

5073 - Scarlet Ohno Revival Turnip - Certified Organic Hot pink skins are vibrant and semi-flattened with white interiors. Flesh is mild and crunchy. Excellent for baby roots or greens with a signature pink streak. Traditionally used for pickling ~150 seeds

5070 - Purple top globe turnip - Certified Organic Widely used by home gardeners and market growers since before 1880. Uniform smooth white globes are best for eating when 5-8cm in diameter. Sweet mild fine-grained white flesh. Excellent quality. 45-65 days. ~300 seeds

5074 - Turnip Seven Top - Certified Organic Does not grow a turnip root - it puts all of its energy into growing the best turnip greens you have ever tasted. Very nutritious and tasty when steamed, stir-fried, or used in salads. Seeds can also be used for sprouts. ~150 seeds

5280 - French Breakfast - Certified Organic introduced prior to 1885, this olive-shaped radish is rosy scarlet with crisp, white flesh and a white tip. Maintains its crisp texture up to 2 months after planting. 25 Days

5140 - Giant Prague - Certified Organic Root storage vegetable with celery flavor. Delicious in winter soups, salads and baked dishes. Large solid smooth roots with white interiors.

5320 - Black Spanish round. Fall Radish. First brought to this continent by 16th century conquistadors. Roots are turnip-shaped with black skin and mildly pungent white flesh. ~150 seeds

5331 - Rattail - Certified Organic Raphanus sativus. 57 days. Grown for the 6" long, thin, crisp and spicy seed-pods, that cover the 3-foot plant after blooming. Pods are eaten fresh, stir-fried or pickled.

5340 - Cherry Belle - Certified Organic A tasty, round, brilliant red radish with crisp white flesh. Tolerant of poor soils, retains tenderness, resists pithiness. 21-26 days

5261 - Green Luobo - popular radish from north China; the tasty flesh is bright green. Very unique and colorful, they are shaped like Daikons. These only grow well in cool weather; great for fall planting.

5270 - Purple Plum - Unique deep purple round roots. Firm white flesh, sweet and mild all season, hardy and adaptable, never pithy. Seed can be sown at any time beginning in early spring, but are best grown in spring and fall to avoid hot, dry temperatures.

5290 - Miyashige White Daikon - Popular Japanese-type radish grows to large size (2-6 lbs) while remaining crisp and tender for pickling, fermenting or storage. Pure white with a pale green band near the crown.

5300 - Easter Egg - Certified Organic A farm stand favorite with pink, red, white, yellow and purple roots. Make beautiful bunches with this mix of red, purple, and white round radishes.

5310 - Watermelon Radish - White/green on the outside red on the inside - very unique and a good addition for eye appeal to Caesar Salads. Can also be used for pickling or oriental cooking. Grows to 3" in size.

5330 - White icicle - 27-32 days Heirloom. Known in the 19th century as White Naples, White Italian and White Transparent, this radish has a crisp texture that never becomes woody.

5332 - Wasabi Radish - This Daikon type radish packs a wallop of tingling wasabi heat, making it a much easier to grow substitute for the famously finicky true wasabi root.

FRUIT SEEDS

Noir de Carmes Melon

Sunberry

Bozeman Watermelon

Muncher Early Hanover Melon

Milatomato Vallista Berry

BERRIES ~50 seeds \$3.50

5701 - Berries Golden Pearls - Certified Organic This fruit forming shrub has been cultivated for centuries in Africa for its sweet golden berries. The small yellow fruits resemble yellow currants, but they are more closely related to tomatoes.

5700 - Sunberry - Certified Organic Sunberry's fruits are blue, slightly sweet and slightly larger than a pea. Said by its admirers to surpass blueberries.

5710 - Garden Huckleberry - Certified Organic Native to West Africa tropics. Sprawling 1m branched plants produce hundreds of round 1cm shiny black berries in clusters. Best when picked after berries turn from glossy to dull black. Good for freezing and canning. 75-80 days

5730 - Milatomato Vallisto - Certified Organic Dark purple berries with sweet fruity flavor. Larger fruits (1 cm) than Sunberry. Can be eaten fresh. Make a good jam or pie filling. Highly pigmented. Plants are larger (1 to 1,2 m). Produce well. Full sun. From Mexico.

5690 - Litchi Tomato - Certified Organic or Morelle De Balbis . Large plants grow to 5', and are covered with thorns, sweet red fruit and large white flowers. Lovely to look at, but be careful with the thorns! About the size of a cherry, and taste like a cherry crossed with a tomato.

CITRON ~20 seeds \$3.50

5639 - Citron - Certified Organic Red-seeded variety has been grown for centuries and used to make preserves and "sweetmeats" that are added to fruitcakes, cookies, puddings. The best fruits can be stored for up to a year. 90-100 days

GROUNDCHERRY ~50 seeds \$3.50

3001 - Aunt molly's - Certified Organic Polish variety prized for clean flavor, hints of vanilla and pineapple. High pectin count makes for great preserves, pies, over ice cream or in fresh fruit salads. 100 cm tall plant.

3002 - Cossack pineapple - Certified Organic 60-80 days Plants reach ~12 in tall and spread into a bush 24 in diameter. Loaded with small ~1cm in diameter, fruit in husks, with pineapple flavor. Good in pies or for jams!

3003 - Golden berry - Certified Organic annual. Cultivated crop since Incan times. Nutritious golden fruit occurs in a decorative (purple streaked) inflated calyx. Loaded with vitamin A, C and B, high levels of pectin and phosphorous.

MELONS ~20 seeds \$3.50

5670 - Montreal melon - Certified Organic Green fleshed melon grown in Montreal around 1900, disappeared for many years before being brought back to Montreal. Excellent taste. 90-100 days.

5671 - Oka - Certified Organic Heirloom variety grown in Montreal 1920-30. Orange flesh and excellent taste 80-90 days.

5675 - Noir de Carmes - Certified Organic One of the easiest and luxurious melons to grow. Dark green skin, almost black when immature, ripening to orange mottled with green. Sweet, aromatic, orange flesh. Very productive. 75 days.

5677 - Delicious 51 Muskmelon - Certified Organic Some consider to be the best open-pollinated muskmelon for cold climates. Sweet 1.5 kilo. fruits, turn yellow at maturity, Dark orange interiors with sweet juicy aromatic flesh. (88 days)

5682 - Melon, Kazakh - Certified Organic Small green-skinned with firm, pale cream flesh with an almost honeydew crunch. Up to 5 softball-sized fruit per plant. Early variety good for short season. Sweet when picked at the peak ripeness.

5672 - Petit Gris de Rennes - Certified Organic Dense 1 kilo fruit with orange flesh that is superbly sweet, flavorful and perfumed. Variety is early and well adapted to cool climates. This fine French variety is of the best quality. (80-85 days)

FRUIT SEEDS

Noir de Carmes Melon

Sunberry

Bozeman Watermelon

Muncher Early Hanover Melon

Milatomato Vallista Berry

5683 - Hearts of Gold - Certified Organic Deep orange flesh is thick and very sweet. Beautiful melons with luscious deep-orange golden flesh. Rinds are thin, heavily netted and medium ribbed. Vigorous, prolific plants bear nearly round, medium-sized, 1 kilo fruits that are ready to pick 90 days from sowing. 80-90 days

5688 - Collective Farm Women - Certified Organic Ukrainian heirloom. Original source was a woman from a collective farm. Crunchy and sweet winter melon with a long shelf life. Small 1 kilo melons turn golden when ripe. 80-85 days.

5687 - Farthest North Melon - Certified Organic 65 days. Small, single-serving, baseball size melons vary in color as well as texture and flavor. The earliest short-season variety we have found.

5685 - Extra Early Hanover - Certified Organic Sweet, soft, juicy flesh can be eaten right down to the rind. Produces large quantities of 1-1.5 kilo melons, 12cm long by 15cm diameter. 70-85 days.

5681 - Minnesota Midget - Certified Organic Extra early. Vines seldom over 1m long. Round fruits are 8- 10cm thick golden-yellow flesh. Edible to the rind, high sugar content. (60-75 days).

WATERMELON ~20 seeds \$3.50

5635 - Blacktail Mountain - Certified Organic One of the earliest watermelons, great for the north, but it also grows well in heat and drought. Red flesh and deliciously sweet, the fruit have a dark rind and weigh 4- 5 kg each. 70 days.

5637 - Sweet Siberian - Certified Organic Medium, light- green, oblong melons weigh ~4-5 kg. Extremely sweet, juicy apricot-colored flesh, 80-85 days.

5645 - Micky Lee - Certified Organic A small, round 4-6kg fruit with a rind pattern similar to that of Charleston Gray, very firm dark red flesh with a tough rind and small seeds. Resistant to fusarium wilt race 1 and anthracnose race 1.

5631 - White wonder - Certified Organic 80 days. Rare variety produces 2-4 kg icebox-size melons. Crisp white flesh, with a fresh sweet taste.

5642 - Bozeman - Certified Organic 70-80 days. Light green skinned watermelon with speckles. Oblong slightly pear-shaped fruit large. Early melon. Good flavor and good keeper for a month or two with few seeds and pink red flesh.

5636 - Early Moonbeam - Certified Organic 2-4kg. Great melon for northern climates, sweet, early and productive. Yellow fleshed with a thin rind. 75 days.

5640 - Mountain sweet - Certified Organic Long 7-10 kg with yellow flesh. Productive with high sugar. 95-100 days.

5630 - Sugar Baby A dependable variety that produces round, sweet watermelons about 20cm in diameter and weighing roughly 4- 5kg. The flesh is crisp, red, sweet and juicy with very few seeds. Skin turns dark red when fully ripe. 75 days.

5634 - Moon and Stars - Certified Organic Introduced in 1920. Medium size, pink flesh. Dark green skin with small yellow spots (stars) and one larger spot (moon). Foliage is also spotted like the fruit

5632 - Wintermelon - Certified Organic 83 days. A keeping watermelon, fruits are pale greenish/white skin color and pale pink flesh. While tasty and a super treat in mid-winter, they are very seedy

CHERRY TOMATOES ~50 seeds \$3.50

BLACK CHERRY TOMATOES

1005 - Black Cherry - Certified Organic Indeterminate. 65 days to maturity. Color is a deep red, with blackish hues. Flavor is sweet, much like other cherry tomatoes, and very full-flavored.

1073 - Black Zebra Cherry - Certified Organic 70 days. Dark red skin and green stripes. Amazingly firm, but they are also very good tasting Round, 3-4 cm wide fruits with dark red flesh. Compact plants, about 40 cm high, determinate.

1752 - Blueberry - Certified Organic indet. compact plants with dark purple stems and regular foliage. High producer of small 1-2 oz round red fruits with very dark blue / purple shoulders that develop when fruits are exposed to UV light.

1776 - Bosque Blue - Certified Organic This is the 2nd release from the University of Oregon research creating a blue tomato. Not quite as large as OSU Blue but big improvement on the taste. Regular Leaf.

Hyssop

HERBS, OTHER \$3.50/pack

6910 - Spearmint Easy to grow, and it's fast, too. In boggy settings it can spread by underground rhizome, but this is easy to control by growing it in containers. The leaves dry well and even fresh they make a nice tea. ~50 seeds

6920 - Peppermint. Perennial. Hot, rich mint aroma from the crushed or dried leaves. Consider growing seeds in containers, for this spreading perennial. Leaves and flowers can be dried for teas or use in stews and sauces. ~50 seeds

6371 - Sorrel Bloody Dock - Certified Organic A British native with rosettes of striking green leaves with maroon veins. Young leaves can be used like spinach, fresh in salads or blanched in boiling water, adding tangy-citrus flavor. ~50 seeds

6370 - Sorrel - Certified Organic *rumex acetosa*. Perennial. True French sorrel, although garden sorrel is much more commonly used for sorrel soup. Smaller leaves are more concentrated in flavor and a little will go a long way. ~50 seeds

6700 - Shiso Green. (*Perilla frutescens*) A Japanese green variety. Green crinkled leaves with fantastic flavor, mostly used for Sushi. Very productive. ~50 seeds

6350 - Sage - Certified Organic *salvia officinalis*. Perennial. The main culinary varieties popular with onions for poultry stuffing and for flavoring rich meats like pork or duck. Sage tea gargle is valuable for sore throat. ~25 seeds

6630 - Valerian - Certified Organic *Valeriana officinalis* Perennial. Excellent sedative action. Widely used to allay pain, nervous unrest, migraine, and insomnia. ~25 seeds

6440 - Borage. Annual. Known as the "Herb of Gladness" for its exhilarating effect. Try adding chopped young leaves and flowers to salads or summer drinks. Cool off with iced borage tea, adding honey and lemon juice to taste. ~25 seeds

6000 - Anise-Hyssop - Certified Organic *agastache foeniculum*. Perennial. Attractive honey plant; produces abundant nectar which yields a light fragrant honey. Strongly anise-scented; delightful for tea or as culinary seasoning. Showy blue flowers ~100 seeds

6250 - Lemon Balm - Certified Organic *melissa officinalis*. Perennial. Fresh leaves burst of lemon when squeezed. Delightful tea for the heart and the nerves. Fresh chopped leaves also interesting in salads, soups and stews. ~50 seeds

6600 - ST. Johnswort - Certified Organic *Hypericum perforatum* Perennial. Noted for its calming effect; valuable for nervous disorders such as insomnia, depression. Oil has healing action when rubbed into joints and muscles. Bright yellow flowers. Active constituent is hypericin. ~100 seeds

6150 - Dill - Certified Organic Very aromatic dill with beautiful, dark green, feathery foliage. The upright plant produces plentiful yields of both green dill and umbels and has a high content of essential oils. ~100 seeds

6620 - Sweet marjoram - Certified Organic *Origanum majorana* Annual. Leaves add strong, spicy flavor to soups, sauces, stuffing, stews. Rubbing with fresh leaves before roasting improves all strong meats. Adds special flavor to sausages and meatloaf. ~100 seeds

6190 - Evening Primrose: Biennial. Very active biologically regulating functions such as the vessel and immune systems, chronic complaints such as PMS disappear. Roots can be eaten as vegetable; shoots as a salad. ~100 seeds

6580 - Allheal *Prunella vulgaris* Perennial. As name suggests, infusion is effective medicine for most internal and external wounds due to its astringent action. Also as a gargle for sore throat. ~50 seeds

6730 - Marshmallow - Certified Organic Slimy roots used to be boiled to a jelly to make the confectionery. In France dried marsh-mallow roots are still sold as soother for teething babies to chew. Noted for soothing inflammations of the skin, throat, eyes, lungs and urinary organs. ~25 seeds

HERB SEEDS
