DYNAMO® STRINGS FOR VIOLA: PERFORM LIKE YOU NEVER HAVE BEFORE

We have developed this set of DYNAMO® viola strings with lots of passion and patience. And the outcome is something that is even better than we dreamed of.

Why? Because our DYNAMO® strings for viola are strings that combine qualities you usually can't find in one set.

- ✓ They offer a broad sound **AND** an excellent response.
- ✓ They have a wide dynamic range **AND** you can modulate sound colors all along to their full extent.
- ✓ They sound great on old **AND** new instruments.
- ✓ Their sound will blow away the musician **AND** the audience.

But before we go on telling you about how great we think they are, you should probably have a go yourself. You'll be pleasantly surprised from the moment you start playing – and after one or two days of getting used to their style, they'll blow you away.

COMPARE THE SOUND OF DYNAMO® STRINGS TO OTHER THOMASTIK-INFELD VIOLA STRINGS

We created this sound chart to make it easier for you to get an idea which of our strings are the right ones for your needs. But of course their sound can differ a bit depending on your instrument.

5 ASPECTS ABOUT OUR DYNAMO® VIOLA STRINGS YOU SHOULD KNOW

We know it can be a tough decision for violists to decide whether to switch to new strings or not. To help you decide, we've made this scale. It shows where our DYNAMO® strings classify in terms of the following 5 aspects.
