

## Halal Statement - Filter Bags

The following products contain no dairy, grain, alcohol, animal origin (including oils, fats and gelatine) and/or meat by-products in their formulation. These products are not manufactured/produced on equipment that has been previously used for products containing the above substances:

- **Nylon monofilament mesh filter bags**
- **Polypropylene felt filter bags**

To the best of our knowledge, these filter media products contain no substances that are contrary to Halal laws.

### Quality Control

These filter bags are manufactured in a facility that is regularly audited. Additionally, well defined and documented work instructions and quality plans are used to ensure that the highest quality standards are consistently maintained.

### Product Traceability

As part of Quality Assurance System, each filter is identified by the following methods:

Part Number

Each filter bag is labelled with product part number.

Batch Number

Each filter bag is labelled with a batch number.

These identifying numbers allow full product traceability to raw material lot numbers.
