# Koskela

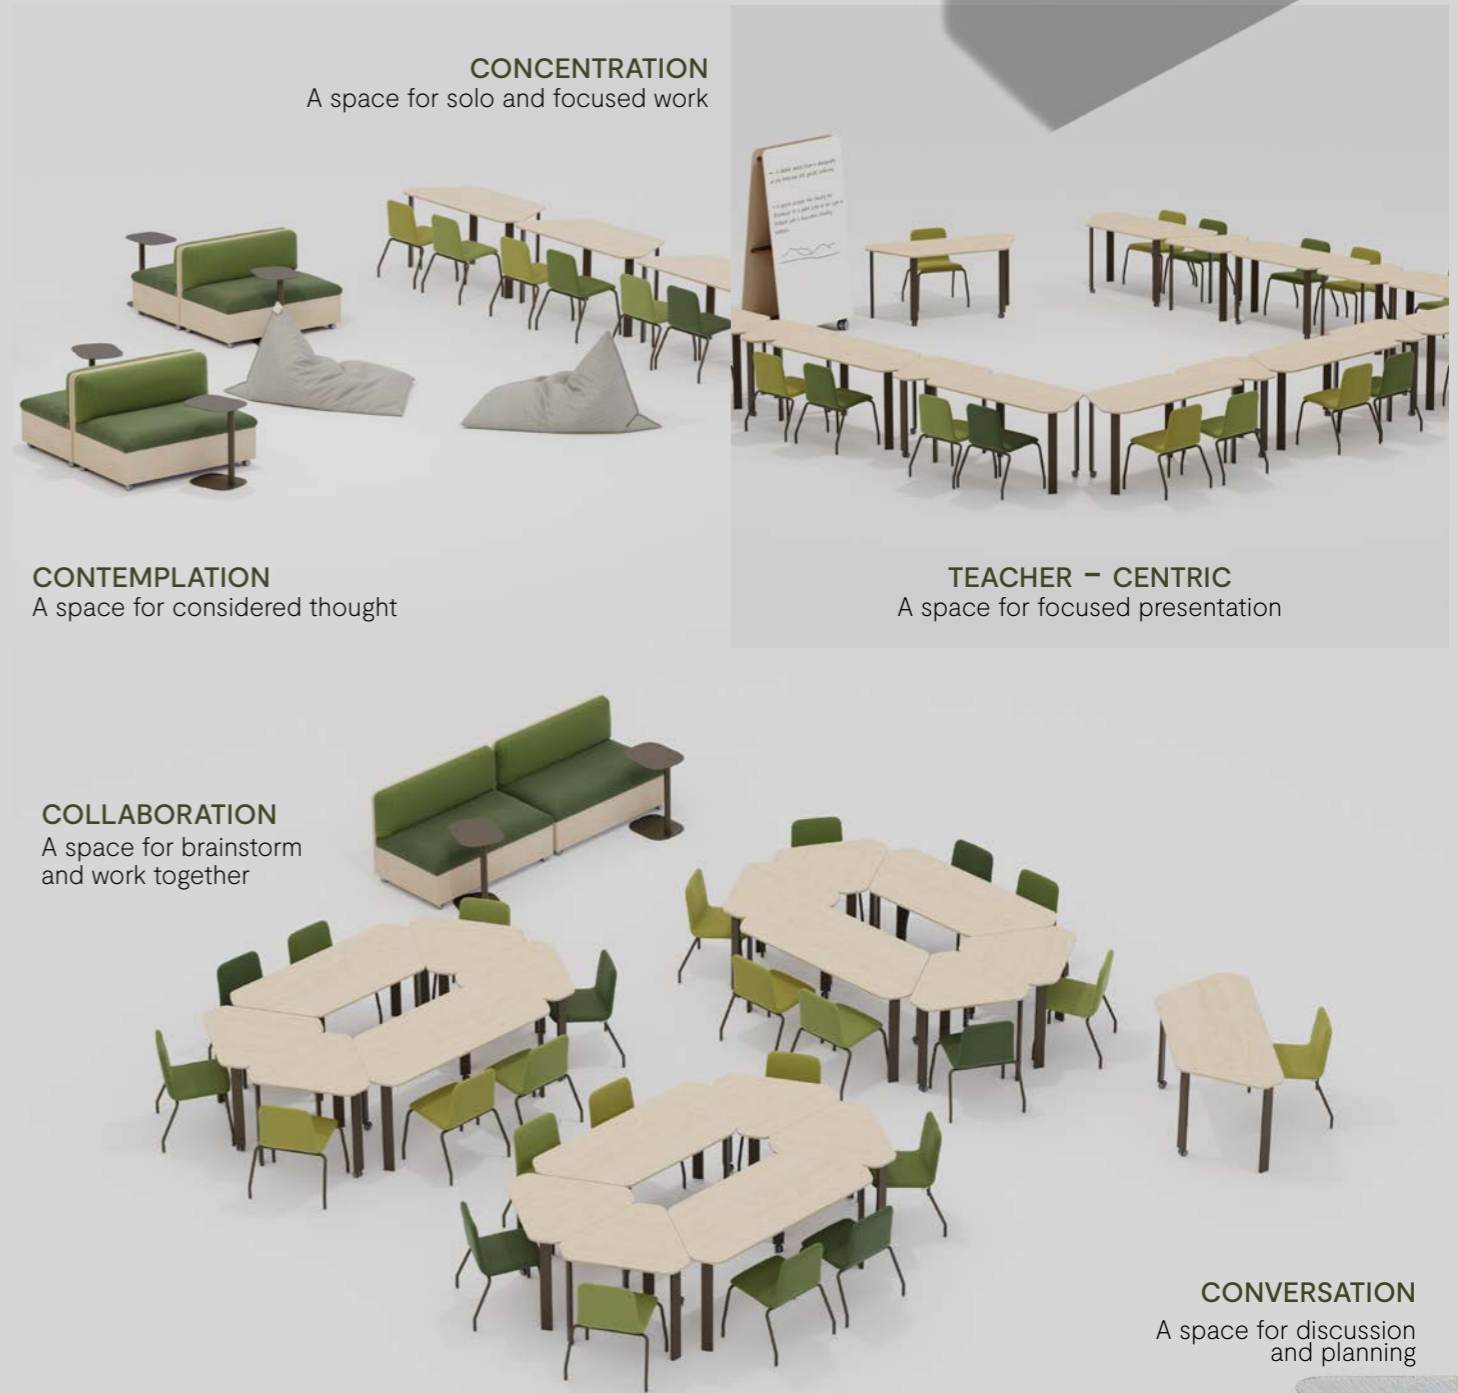

## Learn → Ethically-sourced and sustainable modern classroom and school furniture.

Koskela Learn is a furniture solution for contemporary learning spaces in primary and secondary schools. Envisioned as a kit-of-parts, these adaptable school furniture products help teachers facilitate various types of learning in the classroom.

Three years of research and development went into the creation of the Koskela school furniture range, including testing in collaboration with teaching teams. The result is classroom furniture that consistently creates positive outcomes for teachers and for students, both in primary and high school environments.

Koskela's range of school furniture including desks, seating and screening elements are adaptable and can be reconfigured to adjust to a range of different teaching requirements.

We create **inspiring, healthy and adaptive learning environments** that attract, engage and empower students and educators.

# 16%

Classroom design can increase students learning progress by up to 16% in a single year.

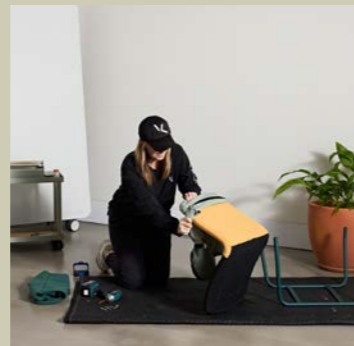

*Clever Classrooms Report: Professor Peter Barrett*

# BUY WELL ONCE BUY WELL ONCE BUY WELL ONCE

## → REPAIRABILITY

Save money - and the planet - by extending the life-cycle of your furniture using Koskela's Repair & Renew program to service and maintain your furniture.

All Koskela Learn products are serviceable: replace the part, not the whole. As part of our 7-year warranty, we also offer annual maintenance visits.

**GUWAL CHAIR**  
→  
Removable,  
easy-to-wash covers

**YAKKA DESK**  
→  
Castors and  
replaceable parts

## MODULAR DESIGN

Ensures easy replacement and renewal of components.

## TOUCH UP PAINT

Provided for on-going on-site maintenance.

## REMOVABLE COVERS

Allows for an easy refresh.

## → DURABLE QUALITY

At Koskela, we stand against the rise of 'fast and disposable' furniture. Since our humble beginnings, we have been committed to producing sustainable furniture that last, made of the highest quality and resistant materials. Built to endure the test of real life, even classrooms. That's why we stand by our pieces with a **7-year warranty**.

All our furniture is designed and manufactured in Australia.

## → PERSONALISED SPACE PLANNING

Get expert advice and free space planning from your dedicated Koskela Learn consultant, here to help you plan your needs and space at every step, and maximise the potential of the Learn range.

Highly experienced, they can come to you with samples for a casual chat about your needs. No matter how big or small your school projects, we are here to help.

## → FROM BUYING TO USING

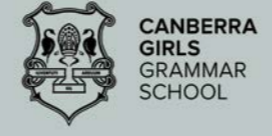

In our move to circularity, we are currently trialing an innovative 'furniture as a service' model for schools. Allowing for full flexibility, it will give you the option of selecting how frequently products are maintained and serviced. Or to send back products once no longer needed, as Koskela would retain the life-long ownership of the product. Get in touch if you want to know more.

*Yakka* translates to *work*,

This word originates from the Yuggera Aboriginal language in Brisbane.

Ignite inspiration and adapt to diverse learning styles with the Yakka junior desks. Available in various heights, including Small for individual use and Large for collaborative learning.

Designed for mobility, they feature caster-equipped legs for easy maneuvering, transforming the classroom layout within minutes. The triangle-shaped top (for Small) and trapezium-shaped top (for Large) feature generous corner radii to encourage dynamic configurations and self-directed learning.

Customise with your choice of birch ply, white, or writeable laminate for the desktops, paired with durable textured powder-coated metal/timber combinations for the legs.

1200 MM (L) 600 MM (D) 525 MM (H)

**Wari** translates to *carry away*.

This word originates from the Dharug Aboriginal language in Sydney.

A folding desk that can be used for exams or dynamic learning situations.

The generous sized top is white laminate with a plywood-look ABS edge. The folding legs lock and unlock with a simple slide bolt (as shown to the right).

This desk is stable when in use and easy to set up and pack down.

Booth Table

Year K → 6

Birch Ply Laminate,  
All Metal **Gili; Flame**

1200 MM (L) 800 MM (D) 650 MM (H)

**Ngalawa** translates to *sit*.

This word originates from the Dharug Aboriginal language in Sydney.

A freestanding booth table to pair with the Ngalawa Junior Sofa to create booth seating.

The height of the table complements the seat height of the sofa, creating a comfy and cosy setting for individual or group work. The simple and cost-effective table has a rounded rectangular base and top.

Freestanding booth table to pair with the **Ngalawa; Sit** Sofa.

*Ngalawa* translates to *Sit*,

This word originates from the Dharug Aboriginal language in Sydney.

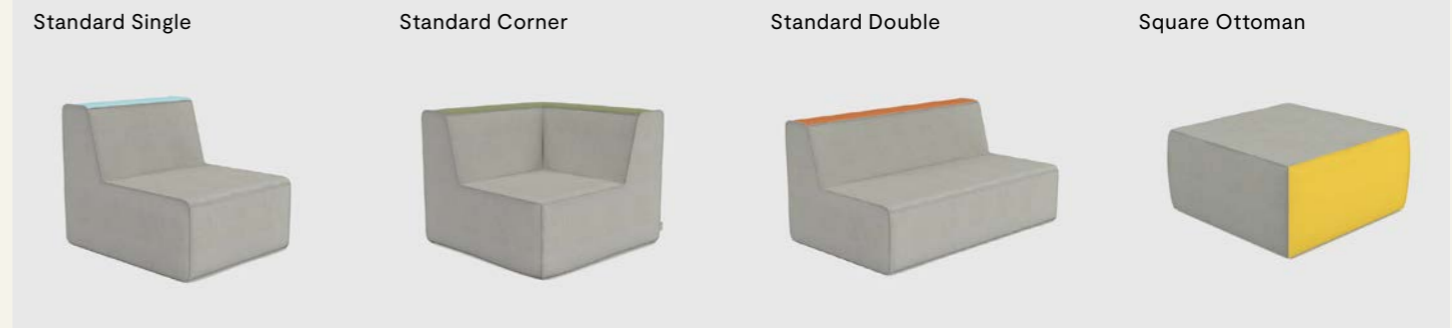

The Ngalawa is a lightweight, modular sofa comprising of four building blocks: Single, Double, Corner and ottoman (plus curved) modules. Made from high density foam, this sofa is very lightweight and maneuverable, making it easy to change its configuration depending on the needs of the day.

Upholstered in a heavy-duty commercial-grade fabric with added stain protection, it will maintain good condition over time. The covers can also be taken off for professional cleaning, and after several years can be replaced to keep the product looking like new. The mix of colours adds to the playful vibe of the sofa, which is finished with a black industrial zip at the back. An ideal fit for school libraries!

---	---	--	--

**Bulada** translates to *snake*.

This word originates from the Dharug Aboriginal language in Sydney.

The Bulada (snake) ottoman is a modular product designed to create dynamic seating configurations in common areas and libraries. The modules can be paired together to create organic, snake-like shapes that stimulate students' minds.

**Mudai** translates to *soft*.

This word originates from the Dharug Aboriginal language in Sydney.

The Mudai (soft) was specially developed as an alternative seating option to the traditional classroom chair for primary school students. It allows for complete freedom of movement, so a child can position themselves to engage with the task at hand.

780 MM (H) – Seat 460 MM (H)

Yarra; Eucalyptus  
600 MM (H) – Seat 330 MM (H)

*Ngarang* translates to *junior*.

This word originates from the Dharug aboriginal language in Sydney.

The design of the Ngarang (junior) chair is a contemporary remake of the old-school cafeteria chair. The seat and back are whitewashed plywood with an upholstered seat in a removeable cover, and the steel frame can be powder coated in any of the four Junior colours.

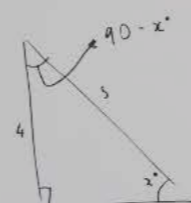

Available in small and large seat heights, the chair is also stackable with a trolley accessory option.

# SEMINOOR

YR 7 → 12

Rule:  $\sin x = \cos(90-x)$   
 $\sin x = \frac{opp}{hyp} = \frac{4}{5}$   
 $\cos(90-x) = \frac{adj}{hyp} = \frac{3}{5}$   
 $\cos(90-x) = \frac{A}{H} = \frac{4}{5}$

SOHCAHTOA

#15  $x^2 - \frac{k}{2}x = 2p$  2  
 $2x^2 - kx - 4p = 0$   
 $a=2$   
 $b=-k$   
 $c=-4p$   
 $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a} = \frac{k \pm \sqrt{k^2 - 4 \cdot 2 \cdot (-4p)}}{4}$   
 $x = \frac{k \pm \sqrt{k^2 + 32p}}{4}$

Quadratic Formula  
 $x^2 + \frac{b}{a}x + \frac{c}{a} = 0$   
 $x^2 + \frac{b}{a}x + \left(\frac{b}{2a}\right)^2 + \frac{c}{a} - \left(\frac{b}{2a}\right)^2 = 0$   
 $\left(x + \frac{b}{2a}\right)^2 + \left(\frac{4ac}{4a^2} - \frac{b^2}{4a^2}\right) = 0$   
 $\left(x + \frac{b}{2a}\right)^2 = \frac{b^2 - 4ac}{4a^2}$   
 $x + \frac{b}{2a} = \pm \sqrt{\frac{b^2 - 4ac}{4a^2}}$   
 $x = -\frac{b}{2a} \pm \frac{\sqrt{b^2 - 4ac}}{2a}$

*Yakka* translates to *work*.

The word originates from the Yuggera Aboriginal language in Brisbane.

A hardwearing secondary school desk that is joyfully different from the rest.

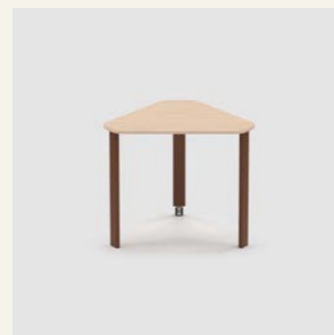

At Koskela, we have opted to develop separate seating and standing desks, to avoid moving parts that are liable to break. When ordering for a classroom, we recommend the majority of one type for whole class setups, with a handful of the other type for focused individual or small group work.

To facilitate these different setups, the Yakka desks are very easy to move. For the Large size, two of the four legs have castors so a student or teacher can tilt the desk and wheel into a new position.

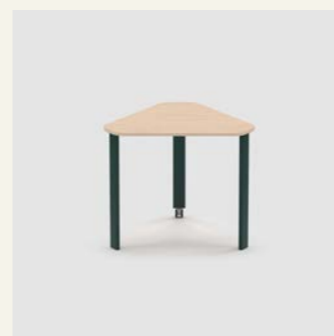

The tops – triangle-shaped for the small and trapezium-shaped for the large – feature a generous corner radius. In a classroom setting they can be arranged in countless organic configurations, which drives dynamic thinking and self-led learning.

The select range of finishes also mimic nature. Colours are inspired by the Australian landscape. Birch laminate is also an option for the tops.

*Gurragurra* translates to *more and more*, originates from the Dharug Aboriginal language in Sydney.

Gurragurra is our straightforward and cost-effective table solution for learning environments. The size is customisable – available in 3 heights – making it suitable for teacher and student desks, in classrooms such as arts & science labs. It has two lockable castors for increased flexibility and to make it easy to manoeuvre. The steel frame is available in powder coated in Koskela learn senior powder coat colours with laminate top finishes to compliment the base.

360 MM (L) 450 MM (D) 620 MM (H)

Ngurra; *Camp Table*

Booth

Ngurra ;*Camp Sofa*

Booth

*Ngurra* translates to *camp*,  
The word originates from the Dharug  
Aboriginal language in Sydney.

A freestanding booth table to pair with the  
Ngurra; *Camp* Sofa to create booth seating.  
The height of the table compliments the seat  
height of the sofa, creating a comfy and cosy setting  
for individual or group work. The simple and cost-effective  
table has a rounded rectangular base and top.

Birch Ply Laminate,  
All Metal **Daramu**; *Tree*  
- Available in all 4 colours  
1200 MM (L) 800 MM (D) 720 MM (H)

Freestanding booth table to pair with the **Ngurra**; *Camp* or **Ngalawa**; *Sit* Sofa.

The Ngurra is a manoeuvrable sofa that can provide  
banquette or booth seating. The lightweight birch laminate  
base is mounted on lockable castors so it can be wheeled  
into position.

Even as a standalone unit, the Ngurra will not go astray  
as a compact and comfortable 2-seater sofa that students  
or teachers can easily move to suit their needs.

The upholstery is two-tone – darker on the seat and lighter  
on the back. This is intended to mimic nature and is part of  
the biophilic design thinking.

The fabric itself is an Australian-made 100 percent eco-wool  
with added stain protection so the sofa will maintain good  
condition over time.

**Ngalawa** translates to *Sit*, originates from the Dharug Aboriginal language in Sydney.

The Ngalawa is a lightweight, modular sofa comprising of four building blocks: Single, Double, Corner and ottoman (plus curved) modules. Made from high density foam, this sofa is very lightweight and maneuverable, making it easy to change its configuration depending on the needs of the day.

Upholstered in a heavy-duty commercial-grade fabric with added stain protection, it will maintain good condition over time. The covers can also be taken off for professional cleaning, and after several years can be replaced to keep the product looking like new.

Available in four colours that are inspired by the Australian landscape: Each component comes in

a tonal variation of that colour. So, if you order a Ngalawa setting, we recommend ordering in one colour, but it will comprise of four different tones. This is intended to mimic nature and is part of the biophilic design. Studies have shown the adoption of biophilic design has a positive effect on student engagement and wellbeing.

Thousands of Quadrant Soft sofas have been specified for breakout spaces in workplaces and universities and we believe this product is an ideal fit for school libraries and common rooms. *Bulada* translates to *snake*.

The word originates from the Dharug Aboriginal language in Sydney.

The Bulada (snake) ottoman is a modular product designed to create dynamic seating configurations in common areas and libraries.

The seat is made of dense foam with a 100 percent eco-wool cover. For ease of maintenance the covers can be removed and swapped out for dry-cleaning. After several years of wear and tear the covers can be replaced to keep the product looking like new.

The Bulada is available in four colours that are inspired by the Australian landscape. If you are specifying a setting, we recommend you pick the same colour for every ottoman (Small, Large and Straight).

Say you pick Bamal (Earth), the colour of the legs for each ottoman will be the same, but the fabric will be a tonal variation of that colour.

This is intended to mimic nature and is part of the biophilic design thinking that underpins the Learn by Koskela range. Studies have shown the adoption of biophilic design has a positive effect on student engagement and wellbeing.

*Guwal* translates to *senior*, originates from the Dharug Aboriginal language in Sydney.

The Guwal is a luxuriously comfortable classroom chair with a contemporary look. Students will appreciate the extra comfort and will be able to focus and perform better.

This is one of the most customisable products in the Koskela Learn range. With four colours for the steel tube base, and four complementary fabrics that you can select for the upholstery.

Stackable, it is also available in a castor version that makes it easy to reconfigure a classroom. And a swivel task chair version.

The padded seat and back have a removable cover made from 100 percent eco-wool fabric. The fabric has added stain protection and the covers can be taken off and professionally cleaned to keep the product looking like new.

BUNJI  
GURARA  
GULIMA  
MURRIRA  
GUNGUN  
MARRI  
NGARANG  
WARI  
GAWAL

*Bunji* translates to *friend*,

The word originates from the Warlpiri Aboriginal language in the Northern Territory.

**Bunji is a game-changing product for leveraging flexibility in a classroom. We wanted this product to be approachable and engaging, like a friend.**

With its birch laminate feet the Bunji can easily be pushed around by students to create spaces for focusing. The visual and acoustic separation is particularly beneficial for group or individual work. The surfaces of the Bunji further assist with facilitating this type of work.

One side is Autex Cube™, a lightweight and semi-rigid panel that has sound absorbing properties and contains a minimum of 45% post-consumer recycled material (PET bottle-flake). It can be used as a pinboard. The other side is whiteboard.

So it's possible to use the Bunji for brainstorming, researching, collaborating and presenting. These screens will transform learning in the classroom and help foster the collaborative skills and dynamic thinking that children will need for the future workplace.

Gurara ,Tall

Whiteboard

1200 MM (L) 300 MM (D) 1900 MM (H)

*Gurara* translates to *tall*.

The word originates from the Dharug Aboriginal language in Sydney.

This A-frame whiteboard is mounted on four lockable castors making it easy to manoeuvre.

The frameless design means there is no buildup of text residue along the edges. The whiteboard is also magnetic for added functionality.

The Gurara can be used as a screening device when there are three or more. The front and back are deliberately different in size so you can line up matching sides to create a curved wall, or you can line them up inversely to create a straight wall.

The steel frame can be powder coated in any of the four Senior colours.

Magnetic accessories such as pen holders, display shelves, and a paper roll dispenser are optional extras.

**Gulima** translates to *a basket made from the knot of a tree*. This word originates from the Dharug Aboriginal language in Sydney.

The Gulima is perfect for school environments because bean bags are, quite simply, a fun seating option that students love. Available in Junior and Senior sizes. Hardwearing cotton canvas cover that is water resistant. Filled with Envee Eco beans a plant based bean bag filling.

Gulima; *Basket*

SENIOR → 1400 MM (L) 1000 MM (D) 600 MM (H)

**Murrira** translates to *line*, and refers to the cutout lines in the stool's seat. This word originates from the Dharug Aboriginal language in Sydney.

Tough but lightweight stackable stool suitable for indoor or outdoor use. Can be filled with sand to weight down during windy weather.

Murrira; *Line*

Stool

630 MM (L) 330 MM (D) 425 MM (H)

**Gungun** translates to *Basket*. This word originates from the Dharug Aboriginal language in Sydney.

Caddy designed to assist teachers to be engaging, agile and dynamic. Slide out desk. Lockable draw. On lockable castors. Add on accessories include filing and tool box.

Gungun; *Basket*

Classroom Caddy

630 MM (L) 330 MM (D) 425 MM (H)

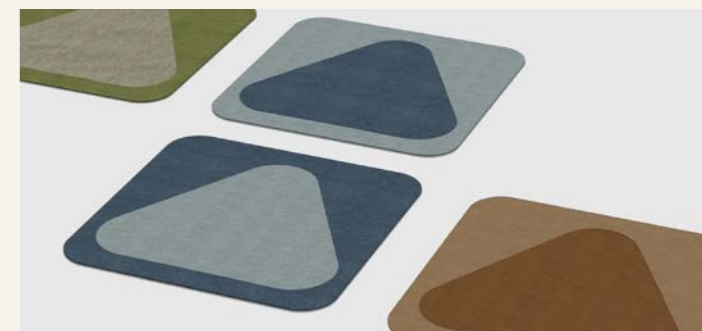

**Budbili** translates to *Possum Skin*, rest assured the Budbili Rug is not made of possum skins.

The Budbili is in fact made from goat hair harvested from goats in their natural habitat on the plains of Mongolia. This natural product with stain resistant properties has been combined with a small percentage of regenerated fibres into a durable corded construction, which increases soil hiding.

Budbili; *Possum Skin*

Rugs

2000 MM (L) 2000 MM (D) 10 MM (H)

Ngayiri; *Bring/Carry*

Built-in storage unit

**Ngayiri** translates to *bring/carry*. The word originates from the Dharug Aboriginal language in Sydney.

The Ngayiri is a practical and manoeuvrable storage unit that assists teachers with organising class resources.

The lightweight birch laminate unit is mounted on lockable castors so it can be wheeled around.

There is a total of 6 shelves – the lower half stacked with large Gratnells trays and the top half stacked with small Gratnells trays – to offer a range of storage options.

Features - Exposed ply edge, Lockable castors, Gratnells trays.

1100 MM (L) 660 MM (D) 500 MM (H)

Marri; *Large*

Built-in storage unit

**Marri** translates to *large*,

The word originates from the Dharug Aboriginal language in Sydney.

The Marri is a practical storage unit that will assist in the smooth operation of a primary school classroom.

The double door unit measures 1800mm (the height of an average adult man). The lower part of the unit has nine open shelves with Gratnells trays, which students can access if they need. Inside in another 10 shelves.

To make this a multi-functional product, the front of the doors is whiteboard. Made from a ceramic and magnetic composite, this is a special non-yellowing whiteboard that can be written on repeatedly without any trace of ghosting or stains.

Teachers especially will appreciate the Marri, which combines amazing storage with an extra surface for writing or display.

630 MM (L) 330 MM (D) 425 MM (H)

**Ngarang; Junior**

A trolley for securely stacking, storing and transporting up to eight Ngarang chairs in the small or large size. This is an indispensable accessory to set up for and pack down events such as performances and assemblies. The junior chair trolley can support up to 8 chairs.

**Trolley**

Year K → 6

485 MM (L) 485 MM (D) 620 MM (H)

**Wari; Carry Away**

A trolley for securely stacking, storing and transporting up to seven Wari folding desks. This is an indispensable accessory to set up for exams and pack down after.

**Trolley**

Year K → 12

1298 MM (L) 746 MM (D) 980 MM (H)

**Guwal; Senior**

A trolley for securely stacking, storing and transporting up to seven Guwal chairs. This is an indispensable accessory to set up and pack down for events such as exams, performances and assemblies. The senior chair trolley can support up to 7 chairs.

# IMP

Business as a Force for good™

Koskela Learn products and the specially developed colour palette have been named with Australian First Nations language words and with our BIOPHILIC design ethos in mind.

With our naming we hope to play a small part in supporting cultural resurgence for Aboriginal and Torres Strait Islander peoples and shaping our national identity.

Koskela is a Certified B Corporation® committed to using business as a force for good™.

# ACT

We donate 1% of Learn revenue (roughly 10% of profits) towards Ginda Barri, a program that supports students mums at the Macleay Valley Workplace Learning Centre (MVWLC) in Kempsey, NSW.
