See that little sticker with a  
serial number and a barcode?  
Peel it off and put it here for  
safe keeping.**

**Or don't.**

## **IMPORTANT**

**DO NOT USE YOUR PRODUCT  
UNTIL YOU HAVE READ THESE  
INSTRUCTIONS. NO WARRANTY  
CLAIM WILL BE ENTERED INTO FOR  
THE MISUSE OR INCORRECT USE OF  
THESE PRODUCTS.**

# ANATOMY OF DOCZ

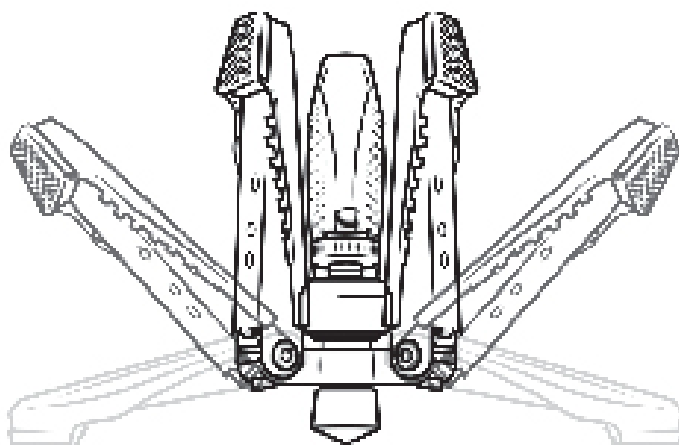

- 1 1/4"-20 Screw Thread
- 2 Screw Lock
- 3 Ball
- 4 Legs
- 5 Leg Buttons
- 6 Rubber Boot / Ball Adjuster
- 7 Rubber Feet
- 8 3/8"-16 Sleeve Adapter

## Using Docz

To open the legs from folded, pull down until they click into place. To fold them back up, press the button (5) at the top of each leg and fold upwards.

To attach to a monopod unscrew the rubber Boot and the adapter in the base of the monopod. If this adapter is stuck, you can remove this by using Toolz, or a coin, and turn it anti-clockwise. Put the adapter somewhere safe.

Once removed, insert Docz' screw thread into the base of the monopod and turn until the screw meets resistance. If you want to adjust the ball position, turn the orange screw lock (2) upwards until it meets the base of the monopod. To adjust the ball position, loosen the rubber Boot on the base of Docz. Angle the monopod to the desired position. Tighten the Boot to lock the ball into place and rotate the orange screw lock (2) downwards. If you want the monopod and ball to move freely, leave the boot (6) loosened and the screw lock (2) up.

## Warranty Information

Your 3LT product comes with a 5 Year Global Warranty. On the box you will find a sticker with a unique serial number and QR code. Use this serial number to register your products at [www.3leggedthing.com/register](http://www.3leggedthing.com/register)
