FOR IMMEDIATE PRESS RELEASE

No Kill Date

Contact: Finger Guard LLC

john@cosmofingerguard.com

Finger Guard LLC dba Cosmo Finger Guard a Peoria, IL Startup is expanding its line of cut resistant specialty gloves. Cosmo Finger Guard known for designing the first patented protective finger glove for Cosmetologists is happy to announce a new three finger glove. This new patent pending glove is designed for at Home Kitchen, Culinary, Chefs and Restaurant use. The new specialty glove has a three finger design that protects the vital parts of the hand and fingers. Like our previous design both versions are ambidextrous, antimicrobial and we offer custom embroidering for a personal touch. Both are made in USA.

With the high cost of an emergency room visit from a cut or laceration and stitches can run near \$2000 we feel \$26.95ea is well worth the price. The Washington Post reported at home kitchen accidents alone are near 330,000 a year and this is not including work related accidents. This expands Cosmo Finger Guard's market in a major way with plans for additional gloves in the future. Our focus is to remain a cut resistant specialty glove company by offering patented unique designs, colors and a personal touch. We have to be different.

We previously announced in last quarter of 2015 two new partnerships. One with Heil & Heil Insurance in Chicago, IL a provider of Business and Salon Insurance who offer a reduced insurance rate for those who carry and use CosmoGlove. Our second announcement was our partnership with AsSeenOnTV-Pro for National and Regional TV Infomercials in Q1 2016. Both versions of our gloves will be featured in these TV spots with local special guest appearances.
