

ADSC2600 Mercedes All Keys Lost Cable Kit - D756298AD

May 2023

The “plug and play” solution to program new slot keys for popular Mercedes models in All Keys Lost situations.

ADA2600

ADC2601

ADC2602

ADC2603

ADA2604

ADC2609

What does the Cable kit do?

The ADC2600 Mercedes Cable Kit allows new slot keys to be programmed safely by connecting directly to the Electronic Ignition System (EIS) of the vehicle.

To perform this procedure it is necessary to remove the EIS from the vehicle, after which the cable simply connects to the EIS. The power cable connects to the EIS cable to a 12 volt vehicle battery. This cable kit works in conjunction with the ADC260 Mercedes Smart Programmer (supplied separately).

Kit Contents

- ADA2600 – EIS Removal Tool
- ADC2601 – EIS Connection Cable
- ADC2602 – EIS Connection Cable
- ADC2603 – EIS Connection Cable
- ADC2604 – EIS Connection Cable
- ADC2609 – Power Cable (12 volt Battery Supply)

What else is needed?

Smart Pro

ADS2298 Programming Software

ADC260 Mercedes Smart Programmer

POD-BENZ-4B1

Full support, including connection locations specific to each vehicle model, at mykeyspro.com under “Guided Processes”.
