Help Data

DOC10.14

Notice

- Notes on "Select from vehicle" and "Select from system":
 - Select from vehicle: Press "Select from vehicle" to get detailed technical information, but the model update will lag;
 - Select from system: A system that automatically recognizes the vehicle model and assembly. If there is no corresponding model in the "Select from vehicle" option, you can enter this menu.
- When performing the functions of fault code erasing and ECM resetting, please do not connect the external power supply of the diagnostic tool, just connect the diagnostic cable, otherwise it may cause a frozen screen and the execution will not succeed.
