

BRAINWAVZ[®]

EARPAD FOR CORSAIR VIRTUOSO RGB WIRELESS INSTALLATION GUIDE

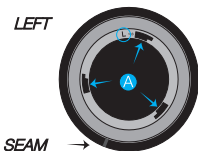

Remove Stock Pads

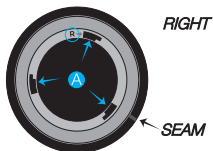

- 1 Grip the pad firmly with thumb and fingers.
- 2 Twist the pad to the right (clockwise) to release the pad from the head unit.

NOTE: The pads are attached to a plastic mounting ring

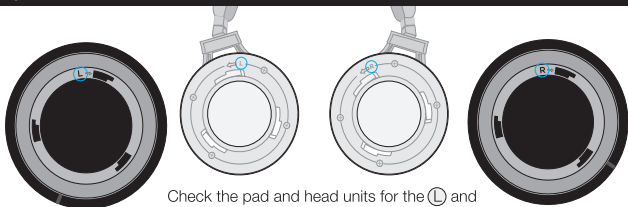

Get To Know The Earpads

There are 3 raised clips (A) that fit into corresponding holes on each headset

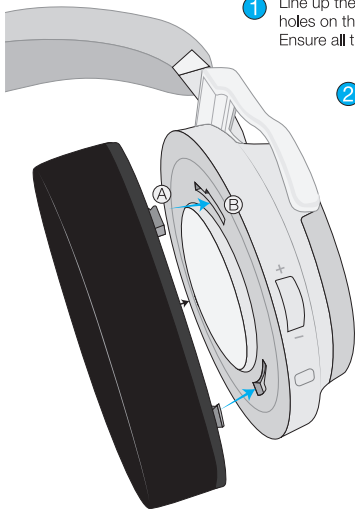

Prepare To Install

Check the pad and head units for the **L** and **R** markings before installing.

Install The Earpad

- 1 Line up the three clips on the earpads ring **A** with the three holes on the head unit **B**, and slot the pad into place. Ensure all three clips are in correctly before continuing.

- 2 Grip the earpad firmly, and gently twist 10 - 15 degrees to the left (counter clockwise).

NOTE

When installed the seam should be at the bottom, if not then reset and try again
