BRAINWAVZ®

EARPAD ADAPTER RING FOR CORSAIR VIRTUOSO RGB WIRELESS INSTALLATION GUIDE

Remove Stock Pads

- Grip the pad firmly with thumbs and fingers.
- 2 Twist the pad to the right (clockwise) to release the pad from the head unit.

NOTE: The pads are attached to a plastic mounting ring

Get To Know The Adapter Ring

FRONT

There are 3 raised clips (A) that fit into corresponding holes on each headset

BACK

The smooth back panel sits flat against the inside of your chosen earpad.

Install The Earpads

Slide the adapter into the mounting flap on the rear of the earpad, pull the fabric over so the ring is completely inside the flap

Ensure that the fabric flap does not obstruct any of the mounting clips

Install The Adapter

Line up the three clips on the adapter ring A with the three holes on the head unit B, and slot the pad into place. Ensure all three clips are in correctly before continuing.

Grip the plastic ring and pad together and slowly but firmly twist 10 - 15 degrees to the left (counter clockwise).

NOTE

Do not over-tighten or you may break the mounting clips.
