QUICK INSTALLATION GUIDE

Remove Old Pads

NOTE

Pads are secured via a set of click-in tabs

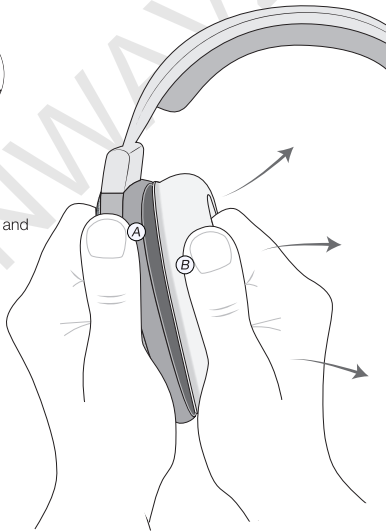

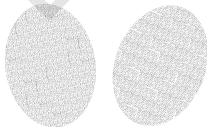

- 1 Hold the headphones firmly with one hand (A)
- 2 With your other hand, grip the earpad and pull away from the head unit (B).

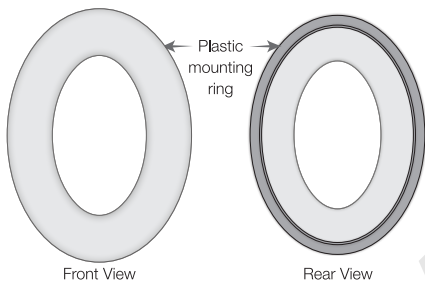

You will hear several clicks as the pad releases from the clips.

NOTE

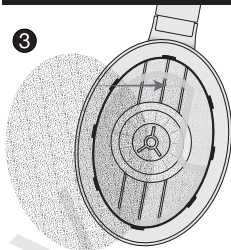

Replacement foam filters are included for models that require them, check if they match what's in your headset, and replace if desired.

Replace Filters/Scrims

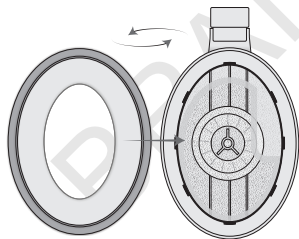

Your model may not need/
require these filters

NOTE: The earpads can be installed any way up, and on either side of the headset.

Install Replacement Earpad

- 4 Offer the earpad up to the head unit, flip it over and gently place it into position.

- 5 Now simply work your way around the pad, pushing firmly on all the clip locations.

Gently pull on the pad to ensure all clips are in place.
