## HERE'S WHY YOU NEED A NEW ROUTER

54% of wireless Internet users surveyed face repeated performance issues.

That old router may still be working, but a new Linksys will give you better Wi-Fi and will be over 1,000 times faster. The average home has more than 8 devices connecting to the Internet – we're streaming TV shows in HD, we're video chatting and playing video games against online opponents, often at the same time.

Good
