INSTRUCCIONES DE MONTAJE

**MADE IN ITALY**

**Prima di effettuare il montaggio dei singoli moduli, controllare attentamente l'ingombro totale della libreria. Valutare lo scorrimento e l'apertura dei singoli moduli affinché non risultino impediti da elementi esterni.**

Before installing the individual modules, carefully check the total amount of space of the library. Evaluate the sliding and the opening of each individual module to check that they are not obstructed by external elements.

Bevor Sie die einzelnen Module installieren, überprüfen Sie sorgfältig den gesamten Raumbedarf der Bibliothek. Bewerten Sie das Schieben und das Öffnen jedes einzelnen Moduls, um zu überprüfen, dass es nicht durch externe Elemente behindert wird.

Avant d'installer les modules individuels, vérifiez soigneusement le volume total de la bibliothèque. Évaluez le glissement et l'ouverture de chaque module individuel pour vérifier qu'ils ne sont pas obstrués par des éléments externes.

Antes de instalar los módulos individuales, comprobar cuidadosamente el volumen de espacio total de la biblioteca. Evaluar el deslizamiento y la apertura de cada módulo individual para comprobar que no están obstruidos por elementos externos.

**I tasselli forniti in dotazione sono indicati per fissaggio in: calcestruzzo, mattone pieno, pietra naturale, forato "doppio UNI", forato in "Poroton", forato cemento o "Leca", spugnocemento. Verificare il tipo e la tenuta della parete ed eventualmente utilizzare viti e tasselli alternativi adeguati.**

The rawlplugs provided are suitable for fixing to: concrete, full brick, natural stone, double UNI-standard perforated brick, "Poroton" perforated brick, perforated cement or spongy "Leca" cement. Check the type and fastness of the wall and possibly use suitable alternative screws and rawlplugs.

Die mitgelieferten Dübel eignen sich zur Montage auf Mauerwerk aus: Beton, Vollziegel, Naturstein, Lochziegel Typ "UNI doppelt", Lochziegel Typ "Poroton", Lochziegel aus Zement oder Typ "Leca", geschäumter Zement. Kontrollieren Sie die Entsprechung der Dübel zum Mauerwerk, und benutzen Sie ggf. andere und besser angemessene Dübel und Schrauben.

Les chevilles qui sont fournies sont indiquées pour la fixation dans: le béton, les briques pleines, la pierre naturelle, mur percé "double UNI", percé en "Poroton", en ciment ou "Leca", en béton moussé. Contrôler le type et la tenue du mur et, éventuellement, utiliser des vis et d'autres chevilles appropriées.

Los tacos incluidos en dotación para colocar en: hormigón, ladrillo completo, piedra natural, agujerado "doble UNI", agujerado en "Poroton", cemento agujerado o "Leca", cemento esponja. Verificar el tipo y el aguante de la pared y si es necesario utilizar tornillos y tacos alternativos más adecuados.

**Indicare con lo scotch sulla parete la posizione della piastra.**

Indicate the position of the plate on the wall with some adhesive tape.  
Geben Sie die Position der Platte an der Wand mit Klebeband an.  
Indiquez la position de la plaque sur le mur avec du ruban adhésif.  
Apuntar la posición de la placa en la pared con una cinta adhesiva.

- 4** **Indicare con lo scotch le estremità della piastra.**  
Indicate the ends of the plate with some adhesive tape.  
Zeigen Sie die Enden der Platte mit Klebeband an.  
Indiquez les extrémités de la plaque avec du ruban adhésif.  
Indicar los extremos de la placa con una cinta adhesiva.
