

D-Ribose (Powder)

For Healthcare Professionals Only

D-Ribose: Supplemental source of D-Ribose, a naturally occurring five-carbon sugar found in all living cells, is essential to life, and has shown to support healthy cardiac function.

This five carbon simple sugar (5 gm/2 tsp), a constituent of every cell in the body with its nucleic acids (DNA/RNA), for facilitating increased ATP energy production, improving stamina and athletic performance, supporting the cardiovascular system in terms of increased cardiac muscle energy production and decreased deleterious effect of ischemia in atherosclerosis.

Recommended dosage is one (1) serving mixed with 6 to 8 ounces of water or beverage of choice, taken twice daily or as otherwise directed by a healthcare professional.

Caution: Not recommended in pregnancy or lactation.

Warning: Do not use in insulin-dependent diabetes unless physician-approved.

Used for:

- Cardiovascular support
- Mitochondrial energy
- Metabolism support
