

Gastrazyme™

For Healthcare Professionals Only

Gastrazyme™ Supplies specific nutrients including vitamin U complex, chlorophyllins and vitamin A, ingredients known to support healing of GI tract which may become stressed due to normal, everyday factors.

From a nutritional point of view, the gastrointestinal tract is considered one of the most important organs in the body. Maintaining a healthy digestive tract is paramount in achieving optimal health, as poor digestion can cause a multitude of seemingly unrelated problems. Nutritional health and gastrointestinal health are therefore closely correlated. **Gastrazyme™** combines a number of nutritional components intended to support healthy digestive functioning, including vitamin A, gamma oryzanol, chlorophyllins, vitamin U complex, superoxide dismutase and catalase.

While there are many different GI formulas available commercially, only **Gastrazyme™** provides the practitioner with a unique blend of scientifically proven nutrients, most from their ideal, natural sources. Cabbage juice supplies vitamin U complex (as DL-methionine methylsulfonium chloride). Mulberry leaves supply chlorophyllins and vitamin A is supplied as natural mixed carotenoids and palmitate. Gamma Oryzanol is not only derived from the far superior rice bran oil, but is combined in our proprietary tableting base which creates a synergistic antioxidant effect. The biologically active vegetable culture tableting base supplies superoxide dismutase and catalase, collectively making **Gastrazyme™** an integral part of any practitioner's arsenal of superior nutritional support products.

Recommended dosage is one (1) tablet taken three (3) times each day before meals as a dietary supplement or as otherwise directed by a healthcare professional.

Used for:

- Vitamin U Complex
- Gastrointestinal Support
- Ulcers
- Hiatal hernias
- Heartburn and acid reflux
- Promotion of GI tract healing

Gastrazyme™

Supplement Facts

Serving Size: 1 Tablet

Servings Per Container: 90

	Amount Per Serving	% Daily Value
Vitamin A (as natural mixed carotenoids and palmitate, 2.5:1 ratio)	3,500 IU	70%
Gamma Oryzanol (from rice)	100 mg	*
Chlorophyllins (from Mulberry leaf)	20 mg	*
Vitamin U Complex (as DL – Methionine methylsulfonium chloride)	10 mg	*
Superoxide Dismutase (from vegetable culture †)	15 mcg	*
Catalase (from vegetable culture †)	15 mcg	*

*Daily Value not established

Other ingredients: Cellulose, modified cellulose gum, silica and magnesium stearate (vegetable source).

† Specially grown, biologically active vegetable culture containing naturally associated phytochemicals including polyphenolic compounds with SOD and catalase, dehydrated at low temperature to preserve associated enzyme factors.
