## HistoPlex-AB™

**Why you may need HistoPlex-AB™:** From mid-spring and the onset of tree pollens, to late spring's onset of weed pollens, followed by summer's superfluous grass pollens, and a nearly year round onslaught of fungi and mould spores – allergic triggers are ubiquitous. Seasonal changes tend to exacerbate this. An estimated 40-50 million Americans suffer from airborne allergies. These tend to provoke responses such as respiratory symptoms, sinus congestion, nasal drainage, post-nasal drip, coughing, red, watery, runny eyes, and dark undereye circles.

### Why your healthcare practitioner recommends HistoPlex-AB™ from Biotics Research:

**HistoPlex-AB™** is an innovative supplement that provides efficient, targeted support. The unique proprietary blend of standardized herbal extracts found in **HistoPlex-AB™** shares the distinction of having immuno-modulating effects. *Fritillaria thunbergii* is known to have antitussive, astringent, and expectorant functions. It is a source of fritimine, which diminishes the excitability of respiratory centers. *Solidago virgaurea*, commonly known as European Goldenrod, and *Scutellaria baicalensis* both function to counteract proinflammatory mediators which may be "triggered" as the body responds to airborne irritation. *Euphrasia officinalis* (Eyebright) has long been used to make improve eye pressure, itchiness, light sensitivity, swelling, and eye drainage. *Morus alba* is a source of quercetin 3 (6-malonylglucoside) (Q3MG), a flavonol glycoside which has known antioxidative and antiatherogenic protective effects. Saponins derive from the root of *Platycodon grandiflorum* have been studied for their multifarious properties including inhibiting Cox-2, TNF-a, and prostaglandin E2 (PGE2) levels.

Supplement Facts	
Serving Size: 2 Capsules	
Servings Per Container: 45	
	Amount Per Serving
Proprietary Blend	1,080 mg
Chekiang Fritillary ( <i>Fritillaria thunbergii</i> ) (bulb) (extract) *
