

Melatonin-B6/Mg

Melatonin is an indole neurohormone secreted by the pineal gland, and is often referred to as the “biological time keeper of hormone secretion.” It is produced in the brain from the amino acid tryptophan,⁽¹⁾ and it functions to maintain the body’s circadian rhythm.⁽²⁾ It also possesses antioxidant properties.⁽³⁾ Blood levels of this hormone are typically high at night and low during the day. In addition to maintaining the circadian rhythm, Melatonin is also proposed to play a role in the biologic regulation of sleep, mood, and possibly reproduction, and aging.^(4, 5) In fact, several double-blind studies have noted the effectiveness of Melatonin in sleep promotion.^(5, 6, 7) Furthermore, Melatonin has also been correlated to controlling the “timing and release of female reproductive hormones.”⁽⁴⁾ As such, it functions in the determination of the period a woman begins to menstruate, the frequency and duration of menstrual cycles, and when a woman discontinues menstruating (menopause).⁽⁴⁾

Vitamin B₆, pyridoxal 5-phosphate or P5P, plays an important role in “steroid hormone-induced protein synthesis.”⁽⁸⁾ The body produces GABA from glutamic

acid in the presence of B₆. Additionally, the conversion of dopa to dopamine is a vitamin B₆ dependent process.⁽⁹⁾ B₆ also functions as a catalyst

in about 100 other enzymes, including the role it plays in the synthesis of other neurotransmitters, including serotonin, dopamine, norepinephrine and epinephrine.⁽⁸⁾

Magnesium (Mg) plays a functional role in many processes. The body’s pool of Mg serves in structural functions (e.g. fluidity and stability of phospholipid bilayers, protein tertiary or quaternary structures and DNA double helices), and dynamic functions including a cofactor or allosteric modulator of enzyme activities.⁽¹⁰⁾

Supplement Facts

Serving Size: One-half (½) Tablet
Servings Per Container: 120

	Amount Per Serving	% Daily Value
Vitamin B6 (as pyridoxal-5-phosphate)	5 mg	250%
Magnesium (as magnesium glycinate)	25 mg	7%
Melatonin	1.5 mg	*

* Daily Value not established

Other Ingredients: Stearic acid (vegetable source), modified cellulose gum, magnesium stearate (vegetable source), and food glaze.

This product is gluten free.

RECOMMENDATION: One-half (½) tablet before bedtime as a dietary supplement or as otherwise directed by a healthcare professional. For adult use only.

CAUTION: Not recommended for pregnant women.

WARNING: Do not use before or during operation of a motor vehicle or heavy equipment.

KEEP OUT OF REACH OF CHILDREN

Store in a cool, dry area.

Sealed with an imprinted safety seal for your protection.

Product # 7750 Rev. 4/15
